RECREATION ACTIVITIES are available at noon every Tuesday and Thursday at Pasadena City College to all interested students under the direction of recreation classes. Here Richard Gnagi of Sierra Madre and Edward Sparks of El Monte play tennis. Other Lancers play volleyball, basketball, ping pong, dance or swim.

Noon Activities Schedule

Pasadena City College Receation Program Set

Starting October 13 every Tuesday and Thursday noon at Pasadena City College, Lancers will have an opportunity to participate in a variety of recreational activities under the direction of Mrs. Dorothy Goodwin, coordinator of recreation education.

"Here is a chance to stretch one's muscles, learn a new activity, meet new people after a morning of taking notes in class, working in a lab or the library," says Sue Helman of Pasadena, publicity chairman. "There's a wide choice — all coeducational except basketball is for men only in the men's gym," she adds.

Popular dancing and volleyball are available in the women's gym; ping pong on the women's gym deck, tennis, and arts and crafts.

"It's open participation and free, and all are welcome," declares Sue. "We know that exercise is often a better cure for fatigue than rest and it helps keep you in shape."

Assisting with the program are Judy Kahn, Cindy Gobber, Paul Higbie, Robert Owens of Temple City; Gary Bond of Eagle Rock; Jo Kuntz and Kenneth Hopper of Rosemead; Janet Lloyd of La Canada; Richard Gnagi of Sierra Madre; Edward Sparks of El Monte.

Also Barbara Hansen and Tony Bautista of Alhambra; Allen Daniel of San Gabriel; and from Pasadena, Diane Hill, Harold and Gerald Slemmer, Steven Lester, Reginal Snow, Dale Cutler, Larry Larswel, William Bradley, William King, Ricky Acevedo, and Tom Rhodes.

Building Permits Still Far Below

Building permits for the year 11970 are still $¼-million below those of 1969, but the year 1969 was some $2-million behind 1969. The tight money situation has virutally stopped the building of residences and business buildings, however this is expected to pick up sometime during the year 1971 and maybe a little sooner.

Total number of building permits issued for the month of September, 31 permits, with valuation of $95,494.50. Street, electrical and plumbing permits, 26 permits, fees collected $158.90.

Building and plan check fees $743. Building figure includes one four unit apartment with valuation of $58,500.

Business licenses, 24 issued, $341.45; dog licenses, 49. $2446.50; bike licenses, $10.

Comparison of building for the first nine months of 1969 and 1970, $717,165 for 1969 and $570,886.50 for the same period in 1970.

Extra Special Events On Calendar Thursday

Republican Open House Friday Night October 16

Two special announcements of addition to upcoming Republican events in Sierra Madre were made today in connection with the Open House at Republican Headquarters tomorrow night and the bridge and canasta luncheon next Monday.

In addition to Congressman Rousselot, honored guests attending the open house, according to Mrs. Carl Cheadle, campaign chairman, will be Roy Priest, son of State Treasurer Ivy Baker Priest; Wayne Butterfield, representing Senator Murphy; Carroll Sheldon, representing Evelle Younger. Others invited include James Fluornoy, State Comptroller Hugh Fluornoy, Governor Reagan, Lieut. Governor Reinecke, State Senator Richardson and Assemblyman Lanterman.

All Sierra Madreans interested in visiting with Republican candidates or their representatives over coffee and refreshments are urged to attend the open house tomorrow night from 7-9 p.m. at Republican headquarters, 20 N. Baldwin.

The second announcement, from Mrs. William Coulson, was that two popular singing performers, "Gary and Susan," accompanied by guitarist Bob Lloyd, have been added to the gala

New City Franchise For Cable T.V.

The City Council at its regular meeting of Tuesday, October 13 adopted a new franchise agreement with Foothill Cable T.V. and authorized the Mayor to sign the agreement on behalf of the City.

The new agreement will become effective on December 1, 1970 and will raise the service costs for apartment renters from the normal $2 extra set charge, to the full charge of all users of the city, which will be the new rate of $5.50 a month for normal connection charges of $16.95, or $4.55 per month, for those that pay a connecting charge of $50.

The city will receive five percent of the gross business revenue of the company, which will increase the city's revenue to approximately $9,000 per year. The 2,500 subscriber limit for rate reduction provision was removed as was the provision for an individual hookup investigation inspection fee.

The agreement also provides that the company would replace all amplifiers and other equipment now due for replacement and it shall be done within a reasonable time.

In short, most subscribers to the service will receive a reduction of 45 cents per month for the services; apartment renters will have an increase of approximately $2.50 per month, depending on whether the apart-

—— Please turn to Page 5

Trail To Jones Peak Given Name

The recently constructed trail to Jones Peak has no official name, hence the Parks and Recreation Commission presented Resolution 70-8 to the City Council that the road be officially named "Jones Peak Trail."

The City Council adopted the resolution at its meeting of Tuesday, October 13.

Generator To Be Replaced Soon

The emergency generator for the City of Sierra Madre served its purposes and gave up during early September; since that time the City has had a stand-by unit ready to move in to the city in the event of wind or storm outage, but it has been necessary to search the market for a replacement.

It was the thinking of the Administrative Staff that a unit might be purchased from the Civil Defense, but this proved to be that none were available.

Bids were called for and the lowest bidder for the generator was the Equipment Service of Long Beach who bid $1,967.58, which includes tax, but does not include the necessary rewiring to accommodate 12.5 kilowatts necessary. Rewiring was estimated to be approximately $500.

The highest bidder was $2.212.13 plus rewiring. Since this was not a budgeted item and was an emergency failure, it was recommended by the Administrative staff that purchase be made immediately.

As noted by the Administative staff the payment for this emergency equipment will have to be made out of the Contingency Fund with

Capacity of Dam Given Analysis

Somewhat discouraging was the report received by Mayor John N. Simons from the Los Angeles Flood Control District relative to the debris capacity increase for the Sierra Madre Wash in connection with the anticipated repair of the wash.

In their analysis they stated that the capacity behind the dam is now 152,000 cubic yards, and the drainage area could produce 265,000 cubic yards during a capital storm, and thus the debris capacity was 104,000 cubic yards of debris short of meeting the District's normal standards.

They gave five alternates available to obtain this additional capacity which were:

1. Excavation of the westerly side of the basin area behind the dam. Estimated cost — $890,000.
2. Excavation of the easterly side of the basin area behind the dam. Estimated cost $3,500,000.
3. Construct additional debris basin or basins upstream of the existing dam. Estimated cost $1,650,000.
4. Construct a debris basin downstream of the existing dam. Cost of 40 homes plus basin for a total of $1,050,000.
5. Modification of the existing dam. Estimated cost $3 million.

The report stated that the feasible alternate would be No. 4, the construction of a debris basin downstream of

Sierra Madre Ecology Fair To Be Staged October 17-18

Representatives of sixteen local civic organizations will present an Ecology Fair for the public on October 17-18 from 9:00 a.m. to 5:00 p.m. Admission is free and the sponsors hope the Fair will acquaint area residents with the crisis in our environment and indicate some possible solutions. The Fair will be held at Alverno Heights Academy, 200 N. Michillinda Ave. in Sierra Madre.

Visitors at the Fair will see displays dramatizing the pollution and conservation problems which we are facing. These displays have been prepared by both national conservation groups and concerned Sierra Madre community organizations. Sixteen local groups including curches, youth groups, schools, and civic associations are actively participating in the Fair.

A fascinating program of speakers and films will be continuous through the Fair. Ellen Stern Harris, an L.A. Times Woman of the Year, will be featured speaker at 3:30 Saturday afternoon. We will also feature Rolf Forsberg's dramatic film "The Ark," plus "Slow Guillotine," "Timetable for Disaster," and the Disney film "Nature's Half Acre."

Commercial groups will display examples of their research on pollution problems. These displays will include explanations of refuse recycling, bio-degradable detergents, and natural foods.

Funds for the Fair were raised through a series of glass, aluminum, and paper reclamation drives. These drives recycled many tons of trash which would otherwise have been left to contaminate the soil in landfill dumps.

The Fair is the first in a continuing series of events designed to involve large numbers of local residents in the campaign against pollution.

The Fair will close with the ceremonial burying of a time capsule — a statement to the people 50 years hence.

Caterpiller 920 Bought By City

Bids were received by the City of Sierra Madre for the budget purchase of a wheel front end loader. Four bids were received meeting the required specification. The low bidder was the Caterpiller 920 at a cost of $19,688, the highest bidder was for a Michigan 55 at a cost of $26,038.

It was recommended by staff and approved by the Council that the bid be awarded to the Shepherd Machinery Company, Rose Hills Road, City of Industry for the purchase of a Caterpiller 920. Delivery is expected in 60 days. The bids included a $1,000 trade-in of the citys' defunct Michigan Loader.

Father Leo, 50 Years A Priest

Rev. Leo Scheibel, C.P., will celebrate the golden jubilee of his ordination to the priesthood at St. Rita's Church, where he had been pastor for 11 years. He will be the celebrant of the 12:15 Mass on Sunday, October 18, at which time Fr. Thomas O'Malley, the present pastor, will be homilist.

Fr. Leo entered the Passionist Order in 1910, professed his vows in 1912, and was ordained priest at Chicago, Illinois on September 12, 1920. A brilliant theologian and philosopher, he taught for many years in the college and seminary departments of the Passionist Fathers.

In 1939 he came to Mater Dolorosa Retreat in Sierra Madre to do missionary work preaching missions and retreats. For one year he served in Mexico City. In 1943 he was appointed pastor of St. Rita's Church in Sierra Madre, where he made many improvements, gained hosts of friends and the parish grew. He was

Gives More Money To General Fund

LIGHTING DISTRICT PROPOSED BY CITY

Before even the tax bills are presented for payment for the year 1970-71, evidence is now present for the first known increase in the tax rate for the year 1971-72, as the City Council considers the formation of a lighting district for the entire city with an estimated tax of 4.5 cents per $100 assessed valuation.

Although taxpayers and citizens may find this hard to take, it is one of the necessary things that has to happen to keep the city in operation and providing the services to the community that are demanded by the citizens.

Should the district be formed it will eliminate the payment of street light out of the General Fund and the costs of lighting city streets will be paid by the homeowners, and the cost of downtown lighting by the business properties.

The proposal will eliminate the present street lightingh district No. 1 which includes Santa Anita Avenue-Elkins Drive - Oakwood Avenue-Vista Avenue and District No. 3A and 3B which is the downtown area.

There will be created a new street lighting district conterminous with the city's boundaries and having two zones. Zone 1 will be all the downtown area, presently described as 3A and 3B. Zone 2 will be the remainder of the City not in the downtown area.

The engineer's estimate shows that the annual cost of Zone 1 at a total of $3,653.10 would be paid by the taxation on the assessed valuation of $1,407,000 of the business buildings and would be a tax rate of approximately 24.0 cents per $100. This compares to a LAND only tax at the present time of 74.67 cents. This will be somewhat of an increase as District No. 3A and 3B all together only brought in $3,000 for the year.

Zone 1 will have a hypothetical cost, estimated by

—— Please turn to Page 5

No Stop Sign For Baldwin At Grandview

Several weeks ago, citizens suggested to the City Council that a stop sign should be installed at the corner of Baldwin and Grandview. Upon investigation by the Engineering Department with a traffic count it was recommended that under normal traffic criteria a boulevard stop is not needed at this time. A sight distance problem was noted and the Engineering Department stated that it could be resolved by painting the curbs red on all four corners to a distance of 50 feet from the corners which would give desirable visability.

The City Council ordered the painting done at the earliest possible convenience.

FIFTEEN MEMBERS OF SIERRA MADRE TEEN CLUB met on Saturday, October 3, at Mira Monte Park to paint the play equipment. In a matter of only four hours all paint was removed from benches and swing sets and they were given a fresh, new coat of paint. The above picture shows members hard at work painting the turtle and slide.

Canyon Pay Phone Denied By Council

Application was made by residents of the Canyon that a pay telephone be returned to their area after General Telephone removed the instrument some months ago.

Upon investigation it was found that the pay telephone was removed by the company on the grounds of excessive vandalism which included the cutting of the receiver cord, smashing the coin box, and using the booth as a lavatory, and it was estimated that the cost to the General Telephone Company ran in excess of $100 per week.

The City Administrative Staff was told that another telephone would be placed in the area if the City of Sierra Madre will guarantee repair and upkeep costs plus a minimum revenue factor, which was estimated to be approximately $6,000 a year for repair and maintenance, and since the records show that the telephone was not used much, the revenue factor was estimated to be at

As Of September 30th

Assets Top Billion Dollar Mark For First Western

For the first time in its corporate history First Western Bank's total assets topped the billion dollar mark, both during and at the close of the third quarter, according to Bank Chairman and President Stafford R. Grady. Grady made the announcement today, when releasing income figures for the third quarter.

At close of business September 30, the bank's total resources reached $1,000,564,000, an increase of 6.7 per cent over 1969's figure of $937,659,000, he said.

Net income for the third quarter, 1970, amounted to $1,460,000, an increase of 4.4 per cent over the $1,398,000 shown for the same period in 1969. Per share net income for the three months just ended, based on average number of shares outstanding, was $1.07, compared to $1.02 in 1969, an increase of 4.9 per cent.

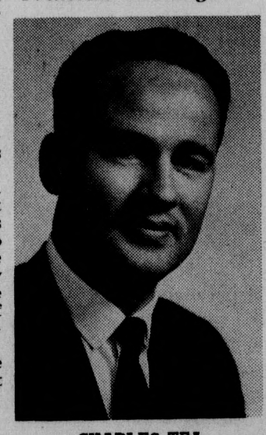

Income before securities gains and losses was $1,375,000 for the third quarter of 1970, a slight decrease (2.3 per cent) from the $1,408,000 recorded for 1969. The per share figures reflect a 1.9 per cent decrease: $1.01 in 1970; $1.03 in 1969.

Yet-to-date net income amounted to $4,077,000, up 1.1 per cent from 1969's figure of $4,033,000. On a per share basis the figures are $2.98 for 1970; $2.95 for last year.

Income before securities gains and losses totaled

Mr. Charles Tea Named Manager

CHARLES TEA
. . . New Manager

An insurance company this week announced the appointment of Charles L. Tea Jr., as manager of the company's Southern California regional office. He succeeds William A. Sadler, who is retiring after a 40-year career.

Tea, a graduate of Texas A & M College, entered the insurance business in 1958 and joined the insurance company in 1962 as a special agent in Lubbock, Tex. He later served at Houston and Raleigh, N.C. until becoming assistant director of field offices at the home office, Hartford, in 1967. Tea has been marketing superintendent in the Southern California regional office since 1968. He lives at 680 Gatewood Lane.

Know Your Town

YOUR COUNCIL SPEAKS

A statement regarding air pollution in the City of Sierra Madre.

by JOHN N. SIMONS, Mayor

The year 1970 has seen smog conditions in Sierra Madre reach an intolerable level. Where at one time our city was renowned throughout the state for its health-spa climate, we now find ourselves choking and hacking on some of the foulest air in the world.

As your Mayor, I feel obligated to do everything within my power to improve this situation. I am therefore taking the following actions.

First, I have asked our City Administrator to request the Los Angeles County Air Pollution Control District to install an ozone monitor in our City Hall. The cost of such instrumentation is approximately $1500, a small amount in view of the vital nature of the problem. The purpose of this ozone monitor is two-fold 1) to enable us to measure the actual intensity of ozone in Sierra Madre, and 2) to allow us to take certain positive steps to inform our local citizenry when the smog level has reached a point considered hazardous to health. At present only Pasadena and Azusa in this area are equipped with ozone monitoring stations; and, in my opinion, both cities suffer undeserved reputations of being centers of air pollution. In point of fact, all the cities in the San Gabriel Valley have badly polluted air and smog levels in sections of some cities likely exceeds the pollution encountered in either Pasadena or Azusa.

My second action is to instruct the City Administrator to commence, as of October 14, 1970 the use of our Civil Defense siren to alert our citizens when a toxic level of smog exists in the atmosphere. This will be done in the following manner. When the ozone level reaches a 0.35 parts per million concentration (this is the level the Los Angeles County Health Department has deemed unsafe for school children) we will sound our Civil Defense siren for a period of one minute. From that time until the ozone level falls below 0.35 ppm we will continue to sound

1st Western Bank Is The Low Bidder

At the regular meeting of the City council held on September 22 the City Council realized the need to borrow $300,000.00 to pay current obligations, and ordered the City Administrator Norman Boehm to search the market for the lowest possible interest rate.

Four banks submitted bids and the First Western Bank and Trust Company of Sierra Madre were the low bidders at an interest rate of 4.05 per cent plus a premium of $5.00. The highest bid submitted was 4.37 per cent interest.

Resolution 70-69 was presented to the Council and it was adopted borrowing the money from First Western Bank in denominations of 10 - $10,000 notes and 2-$100,000.00 notes. The notes will be due and payable on June 31, 1971. The cost of interest to the taxpayer will

—— Please turn to Page 5

Low Cost Insurance For Floods

Low cost flood insurance will be available to Sierra Madre property owners sometime in November, the Federal Insurance Administrator reported recently. In September the City Council requested by resolution that this federally subsidized flood insurance program be extended to Sierra Madre through private insurance carriers. Acting on the request, the Federal Insurance Administrator approved the applcation. The exact date of availability will be known within the next few weeks.

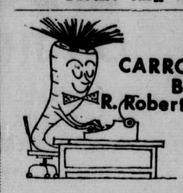

Owners of property in Sierra Madre which is subject to flooding and mudslides are encouraged to see their insurance carrier for detailed information on this national flood insurance program. The rates are low and the rainy season is fast approaching.

S.M. Historical Society's Annual Meeting, Oct. 26

The annual business meeting of the Sierra Madre Historical Society will be held Monday, Oct. 26, 1970 at 7:30 p.m. at the Sierra Madre Woman's Club. All members and interested friends and those wishing to become members are invited to attend. Young people who may be interested in the formation of a Junior Historical Society are also invited.

The program theme is related to the preservation of

——Please turn to Page 3

Here it is October is half gone and as I count the days, after this one, we have only 35 more shopping days to select our prime turkey for Thanksgiving . . . my, my, my, how time does fly, and when you stop to think about it you only have 59 more shopping days until Christmas morning, and then you must have the gifts all wrapped and under the tree.

— CT —

Then there is the sad part of life, after today you only have 56 days, maybe 3 paydays, until you must pay the first half of your property taxes or become delinquent. How well I remember how worried I was at this time last year, not half as bad as this year, and probably this year will not be half bad when next year rolls aound. Always something to take the edge off of life.

— CT —

I was talking to my banker the other day as to just how I was going to pay my taxes when it came due on the 10th of December, and this is what he told me to do. If you can figure it out I would appreciate you letting me in on the secret . .

— CT —

"Take your first right, then first left, left at fork of road turn right again, then your left, then right where you cross the bridge, then right and then a quick left again that brings you out where the old school used to stand, from there take the first small road right turning short left, then right and you'll come out on the main road with the cash . . . You can't miss it."

— CT —

Just like the teacher in school who was annoyed by one of the youngsters who kept scratching his head, finally she asked . . . "Johnny, why do you keep scratching your head." Whereupon Johnny answered . . . "Well teacher I guess it is because I'm the only one that knows that it itches." . . . any better answers?

— CT —

This reminds me of the father and son that had gone to the restaurant for dinner when mother was not feeling too well . . . all of a sudden small son remarked "Hey papa, there's a fly in my soup." . . . 'Vell Ikey," said the father, "'eat the soup until you come to the fly. Then tell the waitress and she'll give you another bowl." and that sounds reasonable to me.

— CT —

We offer hearty congratulations to the management of Roberts Market, their remodeling all finished and they have really revamped the store from the front to back. It is quite an addition to our fair city and should be of much more convenience to the food shopper of the community. Much thought has gone into the various moves all with the customer in mind and with the thought of providing the very best for those charged with providing the food for the table. If you have not as yet paid them a visit, do it today, you will be pleased with what you will see and the many conveniences.

— CT —

Soon, if not already things will start to materialize at the old hotel, work started along the latter part of September, and although not noticed much by the general public, things should be taking shape on the outside by this time. It will be a great addition to our city, and it should be ready sometime around the first of the year.

— CT —

Two Hebrew merchants met on the streets of Los Angeles recently, and one of them said to the other "What's this I hear?" he said, "You had a big fire at your store the other day."

— CT —

"Oh no," said the other. "It isn't going to happen until next week, but how about you- Your insured, too aren't you." "Oh yes," said the other, "I carry both fire and

Get-Acquainted Coffee, Luncheon For Newcomers

The Arcadia-Sierra Madre Newcomers held a get-acquainted coffee at 10 a.m. on October 6, at the home of Mrs. Al West, 925 Volante Dr., Arcadia. Newcomers provides opportunities for new residents of Arcadia and Sierra Madre to meet one another and to establish friendships. Coffees are held frequently to introduce new and prospective members to the many activities of Newcomers, including bowling, bridge, golf, crafts, oil painting, and gourmet cooking.

Mrs. Ming - Ming Chen from the Taiwan Republic of China was guest speaker at the Newcomers October luncheon, which was held at the Altadena Country Club in Altadena on October 13. Mrs. Chen demonstrated how to make and arrange a special type of artificial flowers which she originally introduced to the United States from Formosa. Luncheon was served at noon preceded by a cocktail hour at 11 a.m.

Do you remember — When you had a tabourette in your living room with a fern growing in a fancy jardiniere setting on it?

Camp Fire Girls Start New Year

Starting the new school year off with an important project is the O Ki Zu Ha Wee Camp Fire Girls group.

The Sierra Madre based group of fifth graders has been busily working on a food chain display to be presented at the Ecology Fair this weekend at Alverno Heights Academy.

Recently the girls had a slumber party at the home of Debbie Larson, a member of the group. The girls woke at dawn to take part in a sunrise ceremonial, receiving honors and becoming aware of our world in the quiet hours of daybreak.

Girls in the group include, Lynn Goetz, Doreen Harriman, Lisa Hogue, Limber Holt, Debbie Larson, Janene Moore, Janet Pedersen, Susan Sendejaz, Ellen Sidle, Jennifer Smith, Michele Tailac, and Julie Wesley.

Guardian of the group is Mrs. Robert J. Taillac, with Mrs. Paul Larson assisting.

Do you remember — The first time you put on a pair of roller skates and how fast the sidewalk came up to meet you?

Do you remember — When boys wore dresses until they were four or five years old?

Kit Stroup Takes A Wife In Virginia

On Friday, September 4, Navyman Kit C. Stroup, FTM 3, son of Mr. and Mrs. Richard H. Stroup of 555 West Highland, married Coleen Thomsen of Napa, California in Norfolk, Virginia in a civil ceremony attended by his mother and her father and members of the USN.

Kit met Coleen, the daughter of Mrs. Virginia Thomsen of Napa, Calif. and Mr. Ralph Thomsen of Tennessee, last year when he was stationed in Vallejo, shortly after his induction in June of 1969.

The newlyweds are presently living in Virginia Beach, close to Dam Neck, Virginia where Kit is attending one of the many Naval schools.

Mrs. Frances Stroup, who flew back to attend the marriage of her son, just recently returned to Sierra Madre after having been gone a month. After the wedding she went on to Pennsylvania where she visited with friends and relatives.

Newcomers Club Holds Race Day

The Arcadia-Sierra Madre Madre Newcomes Club will hold their annual Oak Tree Race Day on Thursday, October 22, at the Santa Anita Race Track. Members will meet at 11:30 a.m. at the Club House Terrace for lunch and an afternoon of excitement.

The event is under the chairmanship of Mrs. Lowell Baskins. Members and guests may obtain tickets for $2.75 by calling Mrs. Baskins at 446-2640.

The annual Oak Tree Race Day has always been considered one of the most enjoyable events of the season. The highlight of the day for Newcomers will be the special race named in their honor.

Cystic Fibrosis Luncheon Meeting

The Cystic Fibrosis Guild of Pasadena will hold a luncheon meeting on Thursday, October 15th in the Sierra Madre Villa home of Mrs. Robert Fey. A business meeting at 10:30 a.m. will be conducted by the Guild's president Mrs. Howard Morgridge, with Luncheon following.

Assisting Mrs. Fey as Co-Hostesses will be Mmes. Rowland Graham, Charles Haver, Richard Kessler, Wells Pleas.

Speaker's Topic: 'Garden Herbs'

Miss Dorothy M. Baker, Co-Chairman of the Southern California Division of the Herb Society of America, will present "Herbs in Our Gardens" at the October 20th meeting of the Hastings Ranch Garden Club. Miss Baker has worked with herbs for many years and has been one of a small group who meet regularly at the Arboretum in Arcadia to maintain the lovely herb garden on the grounds. She will also introduce the members to exciting uses of herbs in cookery.

A luncheon meeting at the home of Mrs. Robert Grisbach, 3630 Newhaven Road, Pasadena, will precede the program. Mrs. Keith Lauritzen will assist Mrs. Grisbach as hostess.

COMMUNITY HOSPITAL

During the last week there were three discharges from the Sierra Madre Community Hospital. Ronald Ogren, admitted to the hospital on Tuesday, September 29, was discharged on Monday, October 5. Salvatore Califi, admitted on Saturday, September 19, was discharged on Tuesday, October 6. Mamie Stratton, brought into the hospital on Monday, October 5, was discharged on Tuesday, October 6.

The stork made but one visit to the hospital during the last week, delivering a 6 pound 2½ ounce baby girl to Mr. and Mrs. Jerry Nielsen of Pasadena on Tuesday, October 6. Mother and babe left for home on Friday, October 9, to be greeted by one other little one at their Pasadena home.

You and Your Neighbors

Henrietta (Mrs. Clinton) Symonds of 260 Ramona is getting caught up with this Ecology thing — as of course, we all should — Anyway, one of the many things that she is doing as her part towards Ecology, is the crocheting of rugs out of plastic bags! Yes that's right, plastic bags. All the neighborhood are saving all their plastic bags for her — you know, the bags from potatoes, cleaning, bread, ice cubes, etc., etc. Henrietta, a retired school teacher from Minneapolis, just finished one such rug that she uses on the front porch. She says that they wash quite well in cold water.

The Symonds also have started saving waste paper since they have found out that a ton of paper saves 17 trees! Imagine 17 trees . . .

Perhaps, this will be an inspiration to those of us who have not yet contributed towards Econogy in some way. It rather sounds like fun too. If you can't crochet, maybe you can think up some other way to re-use plastic bags, or some other item for which you've thought there must be some use. Get the old imagination working . . . Let the kids give you some ideas . . . Maybe, some kind of Christmas decorations can be made. (Just one word of caution, though. Perhaps it would be best to think about fire prevention in regards to some of these items you make.)

— ☆ —

Wesley and JoAnn Anderson of 351 San Gabriel Court spent the weekend of Oct. 3-4 in the San Diego area at the Town and Country Hotel in Mission Valley planning a Rotary District Conference to be held there in the very near future.

On the way home they stopped in La Jolla and visited JoAnn's brother, William "Bill" Henry, and his family. Bill, still teaching school, was formerly a teacher in Pasadena for about 16 years.

After that, the Andersons stopped at Leisure World in Laguna Hills to visit with JoAnn's mother, Mrs. Geraldine Henry.

Nice things have happened to Investors Savings

The horizon is full of exciting change.
It was with pride we announced on September 3rd that Investors Savings took a name from our parent organization, Imperial Corporation of America—the nation's third largest publicly-held savings and loan holding company, which has assets exceeding $1.4 billion.
On this date we became

IMPERIAL SAVINGS
and loan association of Newport-Pasadena

Up and down the state other Imperial Corporation of America owned associations are doing the same in a carefully planned program to serve you better.
As we build for the future, you'll find our continued dedication to community growth, with no change in our friendly personnel and experienced management.
And you'll find an even wider range of services, plus the highest earnings for your savings investment.
So come in today, join the successful savers growing with Investors Savings, a subsidiary of Imperial Corporation of America.

IMPERIAL SAVINGS
and loan association of Newport-Pasadena
assets of nearly $220 million

Main office: 61 South Lake Avenue, Pasadena, 795-8441
Executive office: 3366 Via Lido, Newport Beach, 673-3130
Corona del Mar office: 550 Newport Center Drive, Newport Beach, 644-1461
3870 East Foothill Boulevard, Pasadena, 795-0447
134 North Glendora Avenue, Glendora, 335-4043
Woodland Hills office: Ventura Boulevard at Oakdale, Woodland Hills, 346-3920

Republican Open House Friday, Oct. 16

events scheduled for the sell-out Republican bridge and canasta luncheon next Monday at the Sierra Madre Woman's Club.

Gary Graves and Susan Cary, both Sierra Madreans, better known in the entertainment world as "Gary and Susan," will be joined by guitarist Bob Lloyd, to provide entertainment during the day-long bridge, canasta, lunch and bake sale event which was sold out last week, according to Mrs. Coulson. Mr. Graves, a former co-owner of Music for Everyone, has recording contracts with Universal and is currently working on a new single with Miss Cary to be released in the near future, Mr. Lloyd is a guitar instructor at Music for Everyone.

"We are delighted to have such outstanding entertainment to add to our day," Mrs. Coulson said, "particularly since we sold out last week and have been trying to figure out ways of squeezing in more tables for additional reservations still coming in. We are looking forward to the most successful fun and fund--raising luncheon yet."

"We hope the contributions of baked goods will continue to come in as generously as the reservations, since so many of our ticket buyers have expressed hope that the bake sale would not be sold out as early in the day as last year," she said. She asked all those who wish to contibute baked goods to phone her number, 355-7774, or Republican headquarters, 355-2315.

The doors f the Womans Club will open at 10 a.m., she stated, for both card players and bake sale patrons. Luncheon will be served at noon, followed by door prizes and grand prize award. Card playing will continue into the afternoon.

Enie Lommatsch of Sierra Madre was selected to play the part of "Percival" in the play to be presented by Pasadena City College on November 13 and 14. The play will be named "The Boy Friend." Ticket information and reservations may be made at the PCC Bank, 7933-4528.

Do you remember — When a house was a home — not just a place to change clothes and go again?

Las Jardineras 'Western Party' Was A Success

The Las Jardineras Garden Club had their annual fall party at the home of Mr. and Mrs. Jack Atkinson on Shadow Grove, Hastings Ranch on Saturday, October 3. Members received an old fashion Western Express Mail Delivery invitation for a "ya-all-come" Western party. "There'll be food a plenty, square dancin' and fun for all," was written on the invitation.

Serving on the fall Western Party committee were Mr. and Mrs. George Starrett, chairman; Mr. and Mrs. Peter Hurtig, Mr. and Mrs. Robert Gobrecht, and Mr. and Mrs. Ronald Dessin.

Those also present in western garb were Mr. and Mrs. Wayne Brannon, Mr. and Mrs. A. G. Devirian, Mr. and Mrs. Charles Haver, Mr. and Mrs. John Horne, Mr. and Mrs. Charles Hurter, Mr. and Mrs. Albert Kouba, Mr. and Mrs. Charles McCurdy, Mr. and Mrs. Paul McGiven, Mr. and Mrs. Stanley Mikulka, Mr. and Mrs. Paul Nurches, Mr. and Mrs. Grant Otten, Mr. and Mrs. Charles Paddock.

Also Mr. and Mrs. Horace Ray, Mr. and Mrs. Paul Robertson, Mr.and Mrs. Barton Steed, Mr. and Mrs. Robert Talmo, Mr. and Mrs. John Veale, Mr. and Mrs. Jack Washburn, Mr. and Mrs. Ted Will, Mr. and Mrs. Walter Wilson, Mr. and Mrs. Pete Woodworth, and Mr. and Mrs. Donald Yokaitis.

Guests for the western evening were past members, Mr. and Mrs. Joseph Cummins, Mr. and Mrs. Edward Irland, Mr. and Mrs. Robert Riddle, and Mr. and Mrs. Larry Westcott.

Do you remember — When you could buy 10 gallons of gas for your car for $1.00?

School Enrollment To Be Reviewed

A survey of school enrollment at all levels from nursery school through college will be conducted in this area by interviewers of the Bureau of the Census during the week of October 19, according to Leonard C. Isley, Director of the Bureau's regional office in Los Angeles.

Local interviewing will be part of a nationwide effort made annually to measure the Nation's school and college population. A similar survey in October 1969 showed total enrollment to be 59.9 million persons — 33.8 million in elementary school, 14.6 million in secondary school, 3.3 million in kindergarten, 860,000 in nursery school, and 7.4 million in college.

The survey will be made along with the monthly national suvey of employment and unemployment for the Bureau of Labor Statistics of the U. S. Department of Labor which furnishes a basic measure of national ecenomic health.

Information collected in Census Bureau surveys can be used only to determine statistical totals, and facts about each person and family are kept confidential by law.

D. of B.E. To Meet Thurs., October 22

Daughters of the British Empire of California Inc., "Killarney Chapter" will hold their regular monthly meeting at 8 p.m. on Thursday the 22nd of October 1970, at the British Home, 647 Manzanita Avenue (Recreation Room) Sierra Madre. The meeting will be conducted by the Regent Mrs. Amy B. Westwood, and after business has been discussed, refreshments will be served by Mrs. Alice Dulson and Mrs. George Lilley. The Chapter is having a "Bingo" party on Saturday the 7th November, at the British Home, refreshments will be served during the interval. Hope to see all our friends.

Letters To the Editor . . . .

Dear Editor:

Our class is very concerned about the pollution problem in our area.

Enclosed in this envelope are a few ideas our class has discussed. Would you please read them and put them in your newspaper.

— Lisa Fay

Pollution Solutions

1. Use low--lead gas in cars.
2. Turn in materials that can be recycled.
3. Stop off-shore oil drilling.
4. Don't use enzyme detergents.
5. Install filters on ALL smoke stacks.
6. Filter and purify all waste.
7. Find SMOKE FREE ways of transportation.
8. Reduce noise: aircraft, traffic, industrial, etc.
9. More tax money to help solve pollution problems rather than spending tax money on the space program.
10. Find new and clean uses for waste materials.
11. Have strict litter and conservation laws and enforce them.
12. Use safe pesticides.

Historical Society

our natural resources. Mrs. Ella Mae Fehrer, well known throughout California by horticulturists who appreciate the plant life in this state, will speak to us and show slides. Also on the program will be Mr. James Seaman, President of the Theodore Payne Foundation for Wild Flowers and native plants. Other leaders in the field of ecology in our area will also attend.

Father Leo

transferred in 1952 to Christ the King Retreat of the Passionists at Citrus Heights, Calif., where he has been most active, assisting in or caring for over 100 parishes.

There will be a reception in St. Rita's hall on Sunday, the 18th, immediately after the 12:15 mass with snacks and refreshments, served by the ladies of the parish, Mrs. Jules Ruggles presiding. All are invited.

Just back from Chicago for a week's business conference are Mr. and Mrs. Myron E. Smith. They stayed at the Continental Plaza while there. Weather was lovely during their stay — from 80° to 90° to 100°. On the way home, they stopped over for two days in Texas. Business or not, they enjoyed the trip.

Myron and Kay will soon be grandparents again! Their son, Lt. Commander Myron Smith, Jr., CEC, USN and his wife, Jean will be expecting their first child in November. The Commander, a career man in the Navy and presently in Engineering, is in the Canal Zone. He and his wife have been there almost a year.

Other son, Lt. Greg N. Smith of the USAF and his wife, Martha, are now in the Philippines. Greg, flying the big C--130's is with the 774th T.A.S. at Clark AFB. That's really quite a change, climate-wise — from living in Alaska to the Philippines.

Only one of the Smith's brood within any close proximity is daughter Sondra. She and her husband, John Wilson and their year old baby, live in Indio.

Sierra Madre News

Published every Thursday at 9 Kersting Court, Sierra Madre, California, Los Angeles County. Post Office Box 37. Telephone ELgin 5-3324 or 5-3325.
The Sierra Madre News, Official Newspaper of the City of Sierra Madre is declared a Newspaper of General Circulation for the publication of legal notices, as defined by Section 4460 of the Political Code of the State of California, in the Superior Court of Los Angeles County August 19, 1936. Adjudication Decree Number 404,764.
A First Class Newspaper entered as Second Class Matter at Sierra Madre Post Office October 2, 1906, under Act of Congress of March 3rd, 1879.

PERSONALS

PERSONALS are $1.25, check or compose personals, unless in answer to one directed to them. Personals which obviously indicate collusion will be withheld and money returned if party identifies unpublished article. Personals are messages between two parties who, for unknown reasons have no other method of contact.

CUT-THROAT — Hey! I see now where the L.A. County Flood Control wants to get rid of 40 homes in the Canyon Area. This should give a lot of people something to talk about in the next couple of months. What's a million or two $ $ $ to get the job done, one way or another. Huh? — ACE-IN-THE-HOLE

EDDIE — October 26 is close approaching, and I can see that you will not divulge what you have found. But I think the Council does have some kind of inkling, so you should plan on giving it to them with both barrels some time around the end of November. Merry Christmas to 'em and all that — PEPI

GLORIA — I guess that 'Ole Jack finally worked out of cleaning and pressing that was sent to him on his anniversary. I see that he now has a wing dinger for the women; Dresses cleaned and pressed for the low sum of only 99c. I just do not see how he can do this and keep his head above the operational expense, but he figures close, specially when he still has that wondrous bargain of shirts laundered, pressed, on hangers or in boxes for only 4 for 99c. You just cnnot beat this type of special, I do not care where you look, craftsmanship included of course — SUSIE Q

TROUSERS — You will lose me when you get your new tax bill about November 10, after election. Most of you do not realize today what you are going to be faced with, I can see you raving and ranting now, but this is too late, but the silent majority will rise, but do very little for me — SHIRT

THE RECALL election is now all over with; it is history, win, lose or draw the question of the majority now rules; it is time that the minority falls in line and trys to make things work out, this is what the Recall was all about. Has the Majority been represented. Now they have, and it is time that all get together and try and work out what ever the majority wants. Let's do it — EDITOR

SCUDDLED ONE — Will try to make this for issue of October 15. Things were wonderful, just as both of us dreamed that they would be. There will be a tomorrow and there will be "Again" this I am sure of and will defend with all that is within me. I hope that you feel the same. Do you? — TIME ONE

RIP — Worried about this year's taxes? Well, you don't really know what a worry is, for next year will be the granddaddy of 'em all. 5.5% icnrease in valuations coming in 1971, and we can already see at least a $15 tax rate. If you make it this year you will be stopped next; even those that have it saved up will find that their savings has gone and can do absolutely nothing — SEEMORE NOW

PLACID — Boehm is working on what you have mentioned, but it does take time; little by little he is approaching the problem and I am sure that by budget time 1971 you will see the difference, and when it does happen you will hear a lot of squealing, but then it will be too late you know — TROUBLE SHOOTER

RACHEL — The documents have been forwarded, one week has passed, I am sure that you will need the second one to come up with the necessary answers. Do not let Josephine down, please don't — MARY

LOFTY PILE, free from soil is the carpet cleaned with Blue Lustre. Rent electric shampooer $1 from Arnold's Hardware and Gift Store, 297 West Sierra Madre Blvd. All you have to do is call 355-3365 and ask for BOB, he has the answer to cleaning all your carpets and upholstery. Do it today — OLIVER

PEADMONT — I am definitely tired of your remarks around church the past two months, either stop them, or it will be necessary for me to expose the reason for your attitude — CASTILE

SEE ALL the money spent in the Star News on the Recall election? Why is it that so many people spend so much to get a job that is "thankless." It's a mystery to me, seems that the end brought a lot of claims but little was said about "Quality Education" and that was to be the issue — — DISGUSTED FEMALE

DOCTOR SAM — Pricilla said, "Speak for yourself John" and I must also say "Act for yourself Sam" I cannot do all of the project for you, and I think your profession should see to this — NURSE HELEN

TREBLE — Sister Joan does not want to enter the problem. You must solve it yourself, now — CLEF

INFORMED — The party in question is "looking" and one that is looking will seek and find, but this cannot be done in a couple of days. A hit will be made soon and you know this as well as I do, but everyone must be very patient. The end is coming closer and closer, soon now — CASTAWAY

ROBERT — I can no longer tolerate your attitude; either come to me as you know I want you to, or let us forget the whole thing. It is silly to dilly and dally around the bush — MARY ANN

1st Western Low

be $9,100.

In reviewing the situation the City Administrator stated that any surplus that might be available will be placed on deposit at an interest rate of approximately 6¾ per cent and should yield a profit of about $15,-100 which would give a total profit of about $6,000 on the transaction and give the city available money throughout the year.

Do you remember — Riding around in a sporty roadster or coupe with a rumble seat?

Lighting District Proposed By City Council

the Engineer at $13,310.48 and will be assessed about 5 cents per $100 on a valuation of $26,385,000 and together the two zones will bring into the City an estimated revenue of $16,963.48.

This will be an increase in the taxation based on the assumption that it will relieve the payment of lighting from the General Fund, allowing the General Fund to assess more taxes since it is a limited fund of $1.00 per $100 valuation.

No new street lights are proposed and is being considered for creation as a maintenance proposal. No street lighting installation is proposed as part of the procedure. The district will raise money for energy costs. In the future, if a neighborhood desires additional lighting using standard Edison street lighting equipment, this can be installed free of charge by the Edison Company and the energy used charged against the property owners of the city as a whole.

If a neighborhood desires to have more street lighting using special fixtures, it can make separate application to the City Council and pay a surcharge assessment to pay for the lights themselves. In any case the homeowners as a whole will pay for the energy charges.

Two notices of a hearing will be published and will be posted every 300 feet on city streets. At the Public Hearing protests must be written and filed with the City Clerk in advance of the hearing.

The City Council at its meeting October 13 adopted Resolution 70-70 a resolution of intention to order formation of the district, and sets the Public Hearing for November 10.

T.V. Franchise

ment owner was charging $2 or $2.50, and the City of Sierra Madre will have its revenue increased approximately $6,000, which will be a relief to the homeowner and taxpayer at the next tax levy.

New Generator

the recommendation that it be replaced into the fund at the end of the year out of ANY surpluses of revenue over expenditures at the end of the current fiscal year. The Council ordered the installation of the emergency generator at once before the heavy storm period.

Letters To the Editor . . .

Dear Sir:

As the election draws closer, Americans will be inundated with campaign promises. The following thoughts should be kept in mind when preparing to vote:

1. Don't vote for the man who can get things "done" in Washington. Rather, vote for the man who can get things "undone" in Washington.
2. The oath of office given to newly elected public officials at every level of government states that the official will uphold and defend the Constitution of the United States. Vote only for those candidates who propose action which is constitutional. To determine this, reread the Constitution of the United States.
3. Don't vote for a candidate because of his political affiliations or those who support him. Disregard pre-planned political propaganda. Seek specific information from the candidate himself:

A. What is your stand regarding United States aid and trade with Communist controlled countries?
B. What is your stand regarding Federal aid?
C. Do you favor a full investigation by Congress of tax-free foundations and why?
D. Do you favor a full investigation by Congress of the Council on Foreign Relations and why?
E. What is the proper role of government?
F. On what basis should the vote be granted to an individual?

If enough Americans based their votes on thoughts such as these,rather than on petty party politics and propaganda, our Republic might be saved.

Capacity of Dam

the dam; however, Alternate 1 and 3 should be considered. Alternate No. 4 would eliminate 40 homes in the area.

The report ended by stating that they plan to discuss this further with the United States Corps of Engineers and government officials in the hope that debris control facilities can be reconsidered as a part of the federal project. The alternate chosen should be included in the city's request from the federal government for funds to complete the project.

Canyon Phone

least $4,000 annually. $10,000 for a telephone in the Canyon was turned down by the City Council as they did not have the necessary money to underwrite its installation.

Arboretum To Hold Lecture

The annual series of native plant lectures sponsored by the Theodore Payne Foundation for Wild Flowers and Native Plants, Inc., will begin this year Friday, October 16, at 8 p.m. in the Lecture Hall of the Arboretum with an illustrated talk on Pacific Coast Irises by Dr. Lee W. Lentz, noted authority on the subject.

Dr. Lenz is the director of the Rancho Santa Ana Botanic Garden and chairman of the botany department at Claremont Graduate School. The author of numerous technical works on iris, Dr. Lenz is currently pursuing a research project concerned with the breeding and evolution of California iris. His talk will consider the various species, their hybrids, and their uses in California gardens.

The Theodore Payne Foundation lecture series consists of six free lectures given alternately at the Arboretum and at Descanso Gardens in La Canada. The next lecture will be given November 18 at Descanso by Anselmo Lewis, district forest ranger of the Mt. Baldy area, who will speak on "Man and Nature Against the San Gabriel Mountains."

Legion Auxiliary Met October 8

Sierra Madre American Legion Auxiliary, Unit No. 297, met October 8 at the Sierra Madre Recreation Center for their regular monthly business meeting. President, Leila Roberts presided. Former Sierra Madrean, Donna Robertson was a guest. Mrs. Robertson lived in Sierra Madre for many years while her husband, the late Eddie Robertson, was post master. She now resides in Santa Paula. Mrs. Roberts and Mrs. Robertson are old time friends and as ex-service women were associated for many years in the San Gabriel Valley Women's Post of the American Legion.

New member, Lillian Graham was welcomed to the group and obligated by President Roberts.

Lucile Pickett read an article from the "Auxiliary News" on Active Americanism. She also announced that the Foreign Relations study country this year will be Panama.

National Security Chairman, Amy Beisel circulated a petition to secure release of Vietnam prisoners of war.

1450 poppies were ordered to be offered to the public in May. Child Welfare Chairman, Mabel Perry stated that the American Legion Auxiliary is interested in helping all children, not just veterans' children.

Rehabilitation Chairman, Edith Nosher exhibited the gifts purchased for the San Fernando V.A. Hospital Gift Shop.

Mabel Perry served as hostess. The Unit is sorry to lose Mabel as an active member when she and her husband, Wayne, move to Lake Isabella in late November. The next meeting will be a picnic at noon on October 22 at Sierra Vista Park. If it is rainy, the picnic will be held at the Pickett home, 189 W. Highland. Lucile Pickett will be hostess.

Charles and Mary Ellen Wallace recently spent a week in their favorite "away-from-it-all" spot Jerome, Arizona, visiting friends and also attending to some business affairs. They drove and took their two children, James and Molly, both very good little travelers. James had a birthday in September and hit the 'ripe, old age' of two. His sister, Molly Jeanne only joined the family this July, arriving the 16th.

David Phillips In Wheaton College

David Phillips, 600 N. Hermosa, is enrolled as a freshman student at Wheaton College, Wheaton, Ill., for the 1970-71 academic year. The son of Mr. and Mrs. W. Ross Phillips, he is a graduate of Pasadena High School.

Wheaton College is a coeducational liberal arts college which combines conservative Christian faith and practice with high academic standards. It is located 25 miles west of Chicago. Enrollment is limited to 1700 undergraduate and 100 graduate students annually representing all 50 states, some 30 countries, and about 30 church denominations.

FEED A FRIEND FOR NOTHING.

Take this in to Tonio's (the bright and bouncy new Lawry's Coffee Shop-type restaurant in Pasadena). Buy one — or several — of their delicious take-out specialties. And get an exact duplicate of your order *free.* For example, you buy Salad, Cannelloni and a Hamburger. Then Tonio's gives you another Salad, Cannelloni and Hamburger free. That's the great 2-for-1 Take-out at Tonio's. Maybe it's a sneaky way to feed a friend, but it's a smart way to get to know good food.
Sorry, no delivery.

TONIO'S

Out of the Cobwebs

Sixty Years Ago:
October 7, 1910

The prompt muzzling of all dogs with wire muzzles has been ordered by the Board of Health in view of the re-appearance of rabies in Sierra Madre. "Laddie," the fine collie belonging to Miss Coffey, became affected at some time and the disease became evident recently in the dog's actions. He was killed and subsequent examination proved the presence of the disease. Other dogs which he was known to have bitten were killed as a precautionary measure.

Mrs. Annie Rix Millitz, founder of the Los Angeles Home of Truth, will open a center in Sierra Madre at the Brownson cottage on the corner of Auburn and Carter Avenues. The first healing meeting will be held Friday at eight p.m. All interested in the power of Divine Mind to heal are invited to attend.

In response to an appeal for aid for the families stricken by the Times disaster last Saturday morning the News gladly offers to receive contributions for the purpose. Most of the men who lost their lives in that awful event had families dependent upon them for their daily bread. They must now face the world deprived in no small measure if not altogether of their resources. The papers of the Southern California Editorial Association are very generally assisting in this most worthy movement to bring relief to the ones in need. Subscriptions may be sent either to this paper or to the Los Angeles daily papers, in amounts large or small.

In preparation for the erection of a fine new home on his ranch on lower Baldwin avenue, T. E. Yerxa is having the old ranch house moved to a position north of the reservoir and facing on Suffolk Avenue. This house is one of the oldest in Sierra Madre, though it has been added to and recently put in repair by Mr. Yerxa. It was built in 1884 by George B. Davis who purchased the land from the late N. C. Carter, N. H. Hosmer negotiating the sale. To the old timers the ranch is

SPORTS AS Hank Ives SEES IT

HAS FINLEY MET HIS MATCH?

CHARLEY FINLEY is the master of the Oakland Athletics. Dick Williams, former Altadenan, is a man who likes to do things his own way. It could be a case of "never the twain shall meet" because Dick Williams is now the coach of the A's.

Finley believes in changes. As a matter of fact he has had 11 managers in 11 years since he took over the franchise. Williams has a two-year contract but that doesn't necessarily mean that he will be managing the Athletics this time next year. I hope so. He's proved to be a good manager. He won the battle of Boston one year, taking them to the pennant, but lost the battle of Yastrzemski.

AROUND TOWN . . . Don Eckstrand, who kicked a bunch of field goals for PCC last year, is a teammate of Dave Buchanan at Arizona State and is up to his old tricks . . . Jimmy Oggs, ex-Muir, is grabbing passes at a rapid clip for Wash. State.

REMEMBER JACK "LUCKY" LOHRKE? He got his name because he missed a bus or plane (O.K. so the old memory isn't what it used to be). The vehicle crashed and killed most of the members of his baseball team when he was playing in the Pacific Northwest. Oh well, I do remember that's how he got his nickname "Lucky." He later played for the New York Giants on the same team with Bill Rigney. The air crash tragedy that befell Wichita State reminded me of the incident.

OLD HANKUS HAS A HUNCH that Bill Sandstrom's Lancers are going to make it to the state play-

Know . . . THE FOOD *You Eat*

by JEANNETTE

EDITOR'S NOTE: When her children were young and full of questions, Jeannette Heasley found herself looking up the why fores of the food her children ate and asked questions about. She would write them down and after explaining them to the satisfaction of her children, filed them away for future questions. Now that her children are grown, she extracted them from the Heasley Archives and is sharing them with you in a weekly column.

About 1000 A.D. the Vikings are believed to have spent several seasons on the North Atlantic coast of America, but as far as we know they never attempted a permanent settlement. In the seventeenth century the Dutch explored the coast of New England. After 1620 the Puritans came and were here to stay.

By 1630 a small group broke away to develop a new area at the mouth of the Siccanemos River in what is now the State of Connecticut. This settlement became known as Mystic and the River is now known as the Mystic River. These people were searching for freedom to practice the principles of their religion.

These Puritans came upon the American Indians of the coastal tribes. They were knowledgeable in growing and preparing food. They were generous in their readiness to teach the settlers all they knew.

The men of this area worked, and their wives turned primitive little houses into homes and hand-to-mouth eating into nourishing meals. These hardy women planted and tended the vegetable garden, stocked the root cellar, grew and dried herbs. They dried the pod vegetables, made jams, conserves and preserves, pickles and relishes. They milked the cow, churned the butter, and made cheese and sausages. They also salted and corned and smoked the meats, and baked bread. These were all additional duties, for they also had spinning, weaving, sewing, knitting as well as the cooking, washing, cleaning and caring for their children.

The first thing the settlers had to do was clear the land for pasturage. The Indians had all they needed: game in the forests; fish in the lakes, streams,; shellfish, seafish and salt along the ocean; wild grapes, berries, and apples; and adequate soil for their corn and beans. The settlers also wanted their milk, butter, cheese and eggs. They watched for the arrival of every ship that would bring cows, fowl, pigs and sheep.

As soon as there were green pastures, milk and butter were available. Butter was stored and traded to New London, Boston or even the West Indies. Milk went into cheeses where almost every home had a churn and a cheese press.

English mothers had taught their daughters the skills of cookery. The application of this basic knowledge to the materials at hand was the basis for Colonial cookery.

England's thin pancakes, requiring a special pan, became New England's thick nourishing griddle cakes, slapjacks and flapjacks. Soups became chowders, and tarts of puff pastry became pies. Piecrust was made with lard and water and pancakes from cornmeal.

Whaleships carried food provided for the men by their wives. However, many sea captains were excellent cooks and took pleasure in reproducing dishes they had tasted on their voyages. These recipes were brought back to their wives who adjusted them to the foods and seasonings they had available.

Some of our present-day cookery evolves from these recipes. Often when we use a recipe that is supposed to be a gourmet dish it is only a revival of our great-grandmothers recipes.

In those early days soups, slaws, chowders and breads were usually the entire meal. Later these became the first course and much later, fruits, spiced cranberry or elderberry juice, and shellfish were served as an appetizer. Fresh green salads were served only during the summer months, and were served as a separate course after the meat. When fresh vegetables were not available gourds (squash) and root vegetables were used. Pickled beet salads and on-

Sensing . . .

other. And behind every strike is a built-in union threat to employ roughstuff if employers seek to hire new employes who are willing to work.

If the American people understand that they are paying for union irresponsibility and arrogance — in terms of lost public revenues and private employment and profits, they may demand the overhaul of labor law that is essential to the continued economic progress of the United States. The understanding must develop rapidly, however, if serious damage to the company is to be averted.

The Bob (Jean Arnold) Hatfields and the Perry Arnolds flew to the San Francisco area this past weekend to attend a business convention. (Bob and Perry are associated with Arnold's Hardware). This is the first business trip the two wives have been able to make. Incidentally, Perry and Sylvia's infant daughter, Luara Maria, turned one year old last month.

Cloud Seeding Program To Continue This Rainy Season

Although last winter's lack of rainfall reduced cloud seeding opportunities for the County Flood Control District, the Board of Supervisors has appproved continuation of the program during the 1970-71 season.

Supervisor Warren Dorn said the action was taken on recommendation of District Chief Engineer A. E. Bruington who pointed out that success of the effort during the eight years prior to 1969-70 justified its extension for another twelve month period.

The cloud seeding program does not affect the watersheds involved in the recent disastrous fires in the Malibu, Hacienda Heights and Santa Clara River areas, Dorn said.

Only the Forks fire which burned an area tributary to San Gabriel Reservoir is in the target zone of the program and no seeding will be done this winter in that region.

During the 1969-70 season seeding operations were conducted on eight days during six storm periods for a total of 406 generator hours, Dorn said. Seeding was carried out two days in January, four days in February and two days in March.

They produced a runoff increase of 1,224 acre feet into CFCD's Pacoima, Big Tujunga, Cogswell and San Gabriel reservoirs. Figured at a value of $20 an acre foot, water conserved amount to $24,480.

Dorn said total expenses ran $42,105 for a benefit-cost ratio of about .57 to 1. Similar ratios for the eight prior years ran 1.04 to 1, 2.4 to 1, 34 to 1, 38 to 1, 2 to 1, 3 to 1, 4 to 1 and 20 to 1.

Low ratio during last year was attributed to light intensity storms on dry watersheds.

The new one-year pact between CFCD and North American Weather Consultants of Santa Barbara includes $28,408 for professional services and rental of specialized equipment plus generator rental of $1.75 per hour. An $8,000 ceiling has been established for generator operation, Dorn said.

Target areas for the seeding program are drainage regions above Flood Control District dams. Generations are strategically spotted between Pacoima Wash on the west and Thompson Creek on the east.

Fundamental basis for seeding is that, while it cannot produce rain where none would normally occur, it may increase the amount which would fall in the absence of seeding, the Supervisor said.

Determining results is one of the most difficult parts of the program. It requires detailed studies of rainfall patterns within a specific area over a period of years and an evaluation of amounts recorded during seeded and non-seeded storms.

Purpose of the program is to increase runoff into District reservoirs as an additional source for the agency's water conservation activities.

Financing for another year's operation, to become effective November 15, has been included in the current fiscal year budget of the District, Dorn added.

Flood Control District To Open Offices

Supervisor Warren Dorn has announced the opening by the County Flood Control District of two field offices in his district to assist citizens fearful of potential flood threats stemming from recent watershed fires.

The stations will be manned by District engineering personnel familiar with methods of minimizing the effects of potential mud and debris flows.

Dorn said an office has been opened in the Chatsworth area on the east side of Valley Circle Boulevard, two blocks north of Vanowen Street, telephone 346-9533 or 346-9534.

In the Newhall-Saugus area, a field station is located at 21004 West Soledad Canyon Road, telephone 255-0672.

A third station in the Las Virgenes-Agoura area is expected to be opened shortly and details will be announced as soon as finalized, Dorn said.

The offices will be open from 8 a.m. to 4:30 p.m. Monday through Friday and individual appointments may be made for weekends and evenings.

Residents unable to reach the above numbers should call Flood Control District headquarters in Los Angeles at 223-2111, Extension 74126.

A special task force of CFCD specialists under the direction of Chief Engineer A. E. Bruington is currently assessing the flood potential from the burns and is expected to report to the Board of Supervisors soon on emergency works needed in the larger canyons, Dorn added.

Softball Benefit

A benefit softball game between the Country Gentlemen and the Sierra Madre All Stars will be held on Sunday, October 18 at the hour of 1 p.m. Free autographed softballs will be given away. Proceeds from the game will go to the Hal Draper Memorial Fund, for further information call Bob Jones 355-7782, he is staging the event.

Assistance Centers Open To Give Aid To Fire Victims

Victims of the disastrous September 25-28 fires are being aided by Federal, State, County and American Red Cross personnel at four Disaster Assistance Centers being operated seven days a week, Supervisor Warren M. Dorn announced recently.

Designed as one-stop aid facilities where victims can receive governmental and Red Cross assistance in getting re-established, each of the Disaster Assistance Centers is now operational. They are situated at the following addresses:

Chatsworth Fire Station, 23310 Lake Manor Drive, Chatsworth.

Saugus Fire Station, 18239 West Soledad Canyon Road, Saugus.

Las Virgenes Canyon Fire Station, 5215 North Las Virgenes Canyon Road, Calabasas.

Malibu Civic Center, 23533 West Civic Center Way, Malibu.

Representatives of the various agencies are on duty at each of the stations from 8 a.m. until 4:30 p.m. each day, seven days a week to assist families victimized by the fires, according to Dorn.

Assistance in removing debris, securing housing and business loans, temporary housing, property assessment reduction, and grass reseeding is being provided at each of the centers.

Seven departments of county government are joining with the federal and state governments to provide assistance. The county departments involved are the Chief Administrative Office, County Assessor, County Engineer, County Flood Control District, County Health Department, County Road Department and the Department of Urban Affairs.

Meanwhile, Dorn announced the signing of agreements with the federal government to provide temporary housing for victims of the fires.

Assets $1-Billion

$3,899,000 for the first nine months of 1970, a 4.4 per cent decrease from the $4,080,000 shown during the same period last year. The per share decrease amounted to 4.7 per cent, or $2.85 this year, compared to $2.99 the previous year.

Total deposits were at an all time high at the end of September: $862,345,000 an increase of 10.3 per cent over the $781,821,000 of a year ago. Total loans are up by 2.6 per cent, to $566,421,000, from $551,868,000 in 1969.

Do you remember — When you took your girl out riding in a hired rig from the livery stable?

Neighbors . .

Gary and Barbara Skousen celebrated their fifth wedding anniversary on Friday, October 2. Prior to their marriage at St. Rita's in 1965, both of them lived with their families here in Sierra Madre. So, happy aniversary to a couple of real Sierra Madreans.

—☆—

Now it's only two children at home during the school term for Mrs. Barney Huber! Paul is a freshman this semester at Cal Poly at San Luis Obispo, and Deborah is a Junior at UC at Irvine, majoring in English.

However, it's still not exactly quiet around the Huber household — there are still Bill and Mary to keep things hopping!

WISHING YOU WELL

The best wish we can make for you, our friends and customers, is that you will never have to have a prescription filled. Unfortunately, the chances are real good that sooner or later you will need medical attention that will require a corrective prescription. When and if that does happen we are ready to serve you.

We wish you (to be) well!

You and Your Neighbors

October 11, 1970 was John Cummings' 7th birthday! Celebration of the occasion has been postponed until later in the month when all of the family can be on hand to help celebrate the event. John is the son of Robert and Terri Cummings of 432 East Sierra Madre Boulevard.

Happy birthday, John and many, many more!

— ☆ —

Jackie Wilson, daughter of Jack and Betty Wilson of 223 Santa Anita Court, celebrated her 9th birthday, Thursday, October 8 with a family birthday party. Other family members attending to sing "Happy Birthday" and join in the fun were Jackie's sisters, Christine and Barbara. Also, Jackie's married sister and family — Jeannette and Larry Holterhaus and year old Sandra of Monrovia — were on hand for the occasion.

Happy Birthday, Jackie!

— ☆ —

On Sunday, October 11, a very first birthday party was held for Mathew Joseph Dazie Chaisson. Present at family birthday party, in addition to his parents Alcide and Alice Chaisson, were Mathew's two brothers, Michael (8), Keith (7) and his maternal grand-aunt, Miss Catherine Bulatt from Los Angeles.

The Chaisson moved a few months ago from their apartment in Sierra Madre to just over the boundary line into Pasadena. While they certainly enjoy having a home instead of an apartment, they miss Sierra Madre.

— ☆ —

His family and neighbors on Las Lunas Street in East Pasadena were happy to welcome Dennis M. Mina who returned home from Vietnam September 8. He served as a sergeant with the 101st Airborne Division in infantry operations and as an intelligence specialist.

He did not disclose the fact that he had been awarded the Purple Heart, the Bronze Star, and the Army Commendation Medal until his return.

Dennis is a graduate of PHS class of 1968. He will be entering PCC in the Spring to study Business Administration.

Letters To the Editor . . . .

Attention all Sierra Madrean teens who want a chance to get involved in a worthwhile cause. I'm asking each and everyone of you to take only one hour out of your "busy" schedule to march with the Danny Thomas Teenagers March for St. Jude Children's Research Hospital. Sierra Madrean teens are needed to march door to door in their own neighborhood and get donations. Through research, this hospital, the only one of its kind in the nation, is finding cures for children's diseases such as Leukemia, Childhood Cancer, and muscle disorders. This hospital serves sick children of every race, creed, and color free of charge. Through a nationwide march of dedicated teenagers, thousands of children are being helped and their lives restored, with the money raised. This pays for research, doctors, and housing of the patient and parents if necesary. You have a whole week (Nov. 14-21) to cover your assigned area. An hour of your time may save the life of a disease stricken child. So please join the "proud beggars" and help raise the money to cure these kids! All interested please contact: Maureen Kennedy, 355-3731, City-chairman for Sierra Madre and receive more information.

Adults, please try to give your share to your neighborhood teen marcher!

—Maureen Kennedy

Dear Editor:

Like most people when I received the new assessment notice from the Tax Assessor I didn't know exactly what it meant. But I do now. It tells me my tax increased from 470.00 to 980 per year or 510 increase.

My tax payment on a house with a market value of 28,500 is $82.00 per mo. and I cannot sell the house because who is willing to pay 300.00 per mo. to live in an old fashioned house when much nicer housing may be obtained for much less. I can not afford to live in it because the payment has increased 70.00 per mo. in the last 4 years, due to higher taxes.

So I'm not going to make any more payments. And stay here until the Marshals come and physically remove me. The way I figure, if I sold the house now for 26,000 by the time I pay commission etc. I probably would only get about 23,500. Anyway since I owe 21,000 on the house now, I'm only losing 2500.00. And if I'm lucky enough to be able to stay here 6 mo. before the bank has me drug out I'll be 1800 more to the good which will make my loss around 700.00 total which amounts to less than next year's taxes.

Now the bank don't want my house, they want my money, so I figure if enough people who are in the same boat as I am are willing to do the same thing, we will be able to get the help of the Savings & Loan Leagues who can put more pressure in the right places and per chance get our taxes back to a realistic figure. Anyone who has their house financed thru Republic Federal Savings & Loan, formerly Altadena Savings & Loan and have bought or refinanced in the last 3-4 years, I urge you to contact me, box 37, Sierra Madre. Write: Tax Broke Home Owner, P.O. Box 37, Sierra Madre, Calif. 91024.

Audubon Society To Meet Oct. 16

The Pasadena Audubon Society will meet Friday, October 16 at 7:30 p.m. in the Central Library, 285 E. Walnut Street.

Mr. Gehard Bakker, professor of Biology at Los Angeles City College, will present his illustrated slide program: "Photographic Safari In Kenya, Ugunda, and Tanzania."

Mr. Bakker, who was accompanied by his wife Elna (both were sponsored on their expedition by the Los Angeles Geographical Society), visited such famous localities as Olduvai Gorge, Seregngetti Plains, and Ngoro Ngoro Crater.

Mr. Bakker was born in Huntington Park, Calif., and received his bachelors and masters degrees in biology at UCLA. Both Mr. and Mrs. Bakker are active in various conservations groups including the Nature Conservancy and Society for the Preservation of the Tule Elk.

The public is cordially invited to attend this lecture.

The Society, under the leadership of Mr. ando Mrs. Alan Hanner, are cooperating in the effort of Save the California Coastline. All persons interested in conserving the California Coast are urged to write to the Assembly and Senate Committees in Sacramento, and to Assembly Speaker Robert Monagan and Governor Reagan.

Do you remember — When the horse drawn sprinkler cart went up and down the streets to settle the dust?

As Hank Ives Sees It

LITTLE THIS-N-THAT

A COUPLE OF REVOLUTIONARY ideas have been presented recently and Old Hankus definitely subscribes to both theories. The "Chicken Kneel" should be eliminated. A kickoff should have to be returned as long as it is not out of the end zone. Too often a receiver simply kneels behind the goal line instead of running it out, thereby voiding one of the most exciting plays in the game.

THE OTHER NEW RULE would be to make it mandatory for the player committing a rule infraction in football to raise his hand so that the fans and all players plus coaches can identify the offender. They do it in basketball and it's a good idea.

IF YOU ARE A FOOTBALL FAN you should be eating lunch weekly at the Friday meetings of the Pasadena Quarterback Club. The QBs, headed by Don Schroeder, line up great speaking talent on football each week.

ODDS AND ENDS . . . John Q. Trapp should see lots of action for the San Diego Rockets this year. OLD HANKUS figures the Lakers will win their division this year with Alex Hannum's San Diego Rockets finishing second ahead of the San Francisco Warriors.

BILL SHARMAN'S UTAH STARS will be playing their ABA opener soon. The Western Division will be tougher than ever with the addition of Indiana's Pacers. Hankus likes Sharman's crew to win it all despite a powerful threat in Denver, the Pacers and a strong Dallas team.

THE STARS will probably go with Willie Wise and George Stone at forwards, Zelmo Beaty at center, Don Freeman and Merv Jackson in the backcourt. Sharman's gang is strong in reserves with Red Robbins and Mike Butler, Wayne Hightower and Tom Workman on the bench.

LIKE FATHER, LIKE SON . . . Old Hankus is mighty proud of son Tim, who is the sports editor of the PHS Chronicle. It's been many moons since dad had the same position. At any rate Tim told me that the Bulldogs would go all the way in the Foothill Conference and that's good enough to prompt the prediction that PHS will trounce Hoover 27-0 for their fifth straight shoutout . . . BLAIR should have little trouble getting past Glendale . . . MUIR will bounce back for a win over Burroughs . . . PCC's Lancers, looking toward their Nov. 7 encounter with Bakersfield, should win as they please against Cypress.

IN THE PCAA . . . SAN DIEGO ST. by 10 over a tough San Jose St. team . . . CAL ST. LONG BEACH to riddle Santa Barbara . . . . NEVADA to hand CSLA another whipping . . . PACIFIC, back in its own class to edge tough Santa Clara . . . FRESNO ST. over Cal Poly SLO, but not by much . . .

IN THE PAC-8 . . . STANFFORD'S Rose Bowl bound Injuns to outscore Wash. St. . . . USC over Washington by 21, like on the rebound . . . UCLA will get back on the win track over California . . . OREGON to bop Idaho.

Hankus also likes TENNESSEE to edge Alabama . . . AUBURN over Georgia Tech . . . PURDUE to sneak past improved Iowa . . . . NEBRASKA remains unbeaten with triumph over Kansas . . . LSU to bounce Kentucky . . . MICHIGAN over Mich. St. but watch for an upset here . . . MISSISSIPPI to outscore Georgia.

TEXAS TECH over Miss. State . . . NOTRE DAME 35, Missouri 17 . . . NORTHWESTERN over Wisconsin, but watch out for that one . . . COLORADO to crunch out win over Oklahoma . . . AIR FORCE to sink the Navy.

ATTENTION SERVICE CLUBS . . . THE 1969 PASADENA BOWL film is available for showing by contacting the Pasadena Jaycee office at SY 2-5146.

Celebration Great Success

The merger event which began at all six offices of Republic Federal Savings on October 1 and ended October 10, drew unprecedented crowds throughout the ten-day celebration, according to Association management. Hundreds of visitors thronged the head office in Altadena, as well as the five regional offices in Los Angeles, Pasadena, Burbank, Pico Rivera and Santa Ana.

Said Arthur L. Ferris, chairman of the board and chief executive officer: "In terms of numbers, the crowds exceeded our expectations, which is especially gratifying to a community-oriented institution such as ours. It gave us the chance to meet and talk to hundreds of people, both old and new friends, and acquaint them with the added depth and range of our services as a result of our recent merger and our continuing future growth."

Management also pointed out that a general open house is continuing throughout the rest of October.

The Association's head office is located at 2246 North Lake Avenue, Altadena. The Pasadena Regional Office is located at 1845 East Washington Blvd.

Demonstration At Arboretum

The selection, care, and planting of bulbs, especially in containers, will be the subject of two public demonstrations to be given Sunday, October 18, in the new garden work center recently added to the popular Home Demonstration Gardens at the Los Angeles State and County Arboretum in Arcadia.

Superintendent, Frank Simerly and Head Nurseryman, John Provine, will give demonstrations at 11 a.m. and again at 1 p.m., designed expressly for homeowners. The best bulbs to buy for given conditions, the proper containers, kinds of soil, watering, planting methods, display ideas — all will be thoroughly reviewed at the demonstrations which are free to the public.

The Home Demonstration Gardens are a cooperative venture shared by the California Arboretum Foundation and Sunset Magazine. The addition of the new work center with its lath house, potting shed, and two controlled - environment greenhouses, make the entire complex the best equipped and most diversified demonstration garden in the West.

Your Council Speaks — Mayor Simons

our siren for one minute every hour on the hour. Until such time as the LACAPCD installs our ozone monitor we shall use the ozone concentration as measured at the Pasadena LACAPCD facility as the basis for calling a smog alarm.

In the event the ozone concentration reaches 0.50 ppm (the condition the LASAPCD designates as a first stage smog alert) I am ordering the American flags flown at the City Hall and in Kersting Court be lowered to half-mast status until the first stage alert condition has terminated.

Thirdly, I have asked our City Administrator to contact the Los Angeles County Health Department for recommendations on the desirability of using our municipal swimming pool during periods of high ozone concentrations (0.35 ppm or higher). This information will be brought to the attention of the Parks and Recreation Commission and their advice sought as to policy changes deemed desirable in the interest of the health and safety of our children.

I grant that these actions may seem somewhat unorthodox as measures to combat smog. However, I submit that the smog problem is so serious that we must resort to unorthodox measures if anything meaningful is going to happen. At this very moment the Halls of Congress are echoing words which have great signifance to our plight in Sierra Madre and the entire San Gabriel Valley. Legislation setting federal standards for automobile emissions is stalled because the House of Representatives has approved a watered-down bill while the Senate has approved a measure with real teeth in it. This is indeed an anomalous situation for it is hard to imagine what would justify a reluctance of the House to pass legislation requiring the automobile industry to do something it should already have accomplished of its own volition.

In this regard I urge every person in Sierra Madre to take time to write Congressman John Rousselot and implore him to work for the stronger anti-smog bill.

I have requested that our City Administrator send copies of this message to every Mayor in Los Angeles County. I predict with confidence that if every city in the Los Angeles basin began wailing its Civil Defense sirens as we are going to do in Sierra Madre, the howls would be heard loud and clear in Washington.

Three year old Mary Elizabeth Skousen, daughter of Gary and Barbara Skousen, is among those attending the Sierra Madre Community Nursery School this year for the first time. As it seems with all children who attend Mama Pete's Nursery, Mary Elizabeth loves every minute of her "school day."

Letters To the Editor . . . .

Dear Editor:

Oh, no! My favorite extravagance! Utilities! And there's a threatened shortage. New items: Is there enough electric power for all? Fuel shortage crisis this winter. Brownouts. Blackouts. In some cities even the phones are nafued. A letter from a New Jersey friend. Hot dry spell. Not permitted to water the lawns.

My utility extravagance had its beginning in my early L.A. days. First "home," twelve roomers. One bath tub . . . in a room separate from other facilities. Under lock and key and sharp eye of landlady, who had to light the water heater for each bath. Only one bath a week per person. After my "weekly" I'd clean tub only to be accused by landlady of leaving black rim. Detective work revealed mechanic who occupied porch adjoining bathroom crawled through window after I'd leave and use remaining hot water. Contrite landlady. Next private home. Landlady had water sickness. One bath a week. She insisted on fixin' it. Six inches of water in tub. Then room with kitchen privileges. Landlady suffered utility syndrome. "Are you drowning yourself?" she's scream through the bathroom door. "Turn down that gas." "Turn off those lights." I vowed if I ever had an apartment I'd fill up the tub, turn on the lights. Glory be! That's what I've done.

Saddest of all. Our elderly millionaire friends in L.A. lived in a mansion. Furnished in splendor. They hibernated in a small den with open gas heater. Three furnaces in basement. They died. Kinfolk sad but pleased with their inheritance.

The phone the most syndromic. Elderly friends in L.A. live in two-storied house with basement. Answering phone becoming hazardous. But they would not think of spending the four cents a day for an extension. A friend remarked about our phone extravagance. Two extensions and two jacks. I said, "They cost us eight cents a day. How about your cigarettes." She dried right up.

Nicest thing about utilities as an extravagance, they're today's best bargain. Our biggest electric bill of the year only 70 cents a day, less than two cents per kilowatt hour. According to a report in Reader's Digest, the average household electric power usage is equivalent to 64 men working 8 hours a day. Daily costs only a fraction of an hourly wage of a household worker. Wonderful electricity, the invisible agency . . . imponderable. Even the Bright Boys don't know what it really is. Godgiven utilities . . . distributed to us through the Godgiven genius of man. May there be ever an abundance.

— Lillian B. Sage

Deadline Near For Absentee Election Ballots

"Be sure to vote on election day. If you can't vote in person, vote by mail."

Supervisor Frank G. Bonelli so urged the citizens of Los Angeles County today. Noting that the General Election is less than one month away, Bonelli reminded registered voters who are unable to get to their polling place on election day to request an absent voter ballot.

The California Elections Code provides that registered voters may request an absent voter ballot if they will be absent from their precinct on election day for any reason — business, travel, hospitalization — or if the registered voter is unable to go to the polling place because of the infirmities of age, physical disability, or religious restrictions.

Bonelli urged that voters take advantage of this service as early as possible. Voters may apply in person at 808 N. Spring Street or write a letter giving the reason for the request, the home address and the address to which the absent voter ballot is to be sent. Each person who intends to vote must make a separate request.

Requests must be received at the Registrar of Voter's Office, 808 N. Spring Street, Los Angeles 90012, on or before October 27, 1970. The voter has until 5 p.m. on November 2 — the day before the election — to return the voted ballot.

Annual Brunch For Auxiliary

Mrs. Roger L'Heureux, 1920 Liliano Drive, was hostess for the annual Bronze and Gold Brunch of the Sierra Madre Auxiliary of the Crippled Children's Guild of Orthopaedic Hospital, held on Thursday, October 8.

Special recognition was given to the women who have qualified for full membership with volunteer service at the hospital and support of auxiliary projects during their provisional year.

Recipients of gold chrysanthemums which indicated their active status were Mrs. Edward R. Brady, Mrs. Robert D. Campbell, Mrs. Richard D. Mylius, Mrs. C. E. Sheldon, Mrs. Verne W. Smith, Mrs. Joseph B. Sweeney, Mrs. Paul D. Westman, and Mrs. Paul L. White.

Bronze chrysanthemums were given to the new provisionals who were welcomed by Mrs. Leo Lehner, president. Invitations were extended to Mrs. Robert Evans, Mrs. Mortimer Franciscus, Mrs. John Hosterman, Mrs. Robert H. Takeuchi, and Mrs. Allan Tweddle.

Mrs. Henry H. Danowsky was chairman of this event, with Mrs. Nick R. Argy assisting.

Elementary School Menu

Friday — Tuna and noodle caserole, buttered beets, fruit cup, peanut butter and bread, and milk.

Menu subject to change.

Sierra Madre's $15,807 For Streets Given Approval

County Supervisors recently approved allocation of $15,807 to assist the city of Sierra Madre in maintaining the city's Select System streets during the remainder of the current fiscal year.

The allocation is a portion of the funds currently budgeted by the board of supervisors to assist the 77 cities in the County of Los Angeles in the construction and maintenance of city streets which are of general county interest.

Ricky Resh, son of Robert and Agnes Resh, is not only busy with the school studies any PHS 9th grader would have, but also with the sport of Soccer. This must be his fourth or fifth year playing the exciting game, as he has been taken with the game ever since Sierra Madre first organized Soccer teams and began participating in competitions.

His sister, Deborah, a senior at PHS, is mostly occupied with her studies at this time. Ricky and Deborah are the only two Resh offspring still at home. Robert and his sister Amanda, both married, live in Monrovia and Pasadena, respectively.

Do you remember — When you were considered old enough (5 or 6) to carry water and lunch to your father working out in the fields?

You and Your Neighbors

by Nancy Bryan

The Redman family—Don, Judith, their children, Vicki (8) and Kimberly (4½) and their Great Dane, Shadow—spent the entire summer at their home in Baja, California below Ensenada in Baja, California. They are picking up some of the Spanish language, but are anxious to find some Spanish speaking person here who would take pity on them and give them a little help with El Espanol.

— ☆ —

Happy Birthday to Reserve member of our Volunteer Fire Department, George Mauer. (George is also the linotiype operator here.) All he'll admit to is "Over 21!" In this day of protesting and rights and such, I guess we'll have to let it go at that.

— ☆ —

Robert and Agnes Resh became grandparents for the second time on August 21st. And just to even things out so that they'd have one of each, this time it was a girl.

Son, Robert and his wife, the former Linda McKinney, are the proud parents of the new grandchild. They named their seven pound daughter, their first-born, Jennifer Renee. The happy little family resides in Monrovia, just close enough for Grandfather and Grandmother to spoil Jennifer a wee bit.

Chad Harris, the Reshes first grandchild and son of their daughter, Mrs. Armanda Harris of Pasadena, celebrated his second birthday, Sunday, October 4th.

Craig Smith, son of Rolland and Gloria Smith is on a "grand tour" of Canada and the United States visiting relatives he's never met before. In Canada, the touring has been throughout Alberta and British Columbia. While there he worked a month on a relative's farm helping to harvest hay, something a 'city boy' like Craig, thinks is great fun.

Before too long, Craig will be leaving Canada for New Hampshire to visit an aunt and uncle and see a few sights. From there, he will travel to Iowa to visit yet another aunts and uncle before returning to Sierra Madre.

A graduate of PHS, Craig will start college this Spring at PCC where he plans to major in veterinary medicine.

— ☆ —

Jay Salter left for Vietnam in July for his new position with a large construction firm over there. He will be editing the company news.

Wife, Bettina (Tina) and their two girls, Cathy (9) and Renata (4), will leave for that part of the world the week before Thanksgiving, and will set up housekeeping in Bangkok, Thailand.

Sorry to see the Salters leave our community, but wish them lots of luck and happiness.

YOUR CHURCH IS WAITING FOR YOU

Chantry Flats Rd. Improvements To Be Started Soon

Deteriorated and eroded pavement on the 3.3-mile stretch of Santa Anita Canyon Road from the Chantry Flats area southely to Arno Drive will soon be repaired, Supervisor Warren Dorn announced today.

He pointed out that the project plans and specifications were prepared by the County Road Department and approved by the Board of Supervisors.

The portion of Santa Anita Canyon Road, which traverses the cities of Arcadia, Sierra Madre, Monrovia, and unincorporated county area, provides the only access to Santa Anita Dam and the Chantry Flats Forest Service facilities and recreation area.

Editorially Speaking

The Way It Looks

by Howard Jarvis, State Chairman,
United Organizations of Taxpayers, Inc.

I happen to know that much activity by the administration was devoted to secure the release of those American hostages held by the Palestinian guerillas as a result of the recent airplane highjackings.

But, all of a sudden most Americans were released, and as yet I have seen nothing published or broadcast giving credit to the President for this accomplishment. If our government did not affect these releases who did? It was done without military intervention or force. One would think the networks, at least would have secured the facts and give the credit to those who deserved it. Do we have to wait for Spiro to hear the truth?

This is the month for the property tax bills. The Assessors over the state are supposed to get them in the mail about October 25. They are due on December 10, 1970.

I fear that many property owners are going to get the "shock" of their lives when they get this year's bills. This years tax raise in most of California is by far the biggest in history. Thousands of people will have to deprive themselves of the bare necessitis of food and clothing in order to pay their taxes and keep the roof over their heads.

It is tragic. Many thousands will not be able to pay these taxes at all. Many families that do pay will have a very meagre Thanksgiving and a very poor Christmas. This ought to sadden us all. It does me.

ITEM — I came to California from Utah, where I was born and raised. I have always been proud of the pioneer heritage that was left to me by others, so I was interested to read that the Utah law prohibits the use of lewd or obscene language in public places, ie in speeches to the public or in public places open to all.

It sems one Victor Gordon, described as a black militant decided Utahn's were too inhibited to utter in public the familiar earthy phrase that is a blunt description of a form of incest, so he proceeded to do so in a public meeting.

Utah officials arrested Gordon who immediately filed a suit in the U.S. district court to have the Utah law declared unconstitutional. However, the three panel Federal Court held the Utah law constitutional. Gordon will now be prosecuted.

I suppose some can make a case that in private people can be as obscene as they wish, but it seems clear to me that those who impose obscenity upon others in public are violating the civil rights of those who do not wish to hear or see it. Utah thinks so, and I like that.

★ ★ ★ ★

Where Is Pasadena?

The first report on the statewide reading testing program has been issued by the State Department of Education.

As with all books of statistics, the report must be read selectively and with some adjustment for other factors which can come only from knowledge of specific districts. Nevertheless it offers citizens and taxpayers a major chance to compare school districts and see if they are getting their money's worth.

For example, the report shows Westwood Unified district in Lassen County, with 442 students ranked 51 in the state on IQ ratings of 10th grade students but these placed second in the state on the median reading test. Beverly Hills, which had the highest ranking on family income and on IQ for 10th graders, ranked 5th on the reading scores. As compared to the 1st ranking of Beverly Hills on family income, the Westwood ranking was 462.

The makeup of the schools also is reflected to a degree as the percentage of "minority" students is shown and the transitory traits of students. Class sizes also are compared as are salaries of teachers and the ratio of teachers to non certificated personnel.

The document could be one of the most useful to reviewing education problems, too, as it includes tax rates, assessed valuation per pupil and many other items often found only in separate reports.

One result of the report may be to force a look at the effectiveness not only of teaching methods but of the test. It may show that some systems teach students to pass a specific test , but do not necessarily teach general reading.

The report seems to show there is not necessarily a correlation between intelligence and reading tests. Ross Elementary in Marin County ranks first on IQ of 6th grades, but 10th on the reading scores. Sixth graders at Orinda Union Elementary in Contra Costa County scored 8th on IQ but second on reading.

Sixth Graders in Happy Valley Elementary in Santa Cruz County scored highest on reading tests but ranked 19th on IQ.

The report not only compares districts throughout the state, but in separate charts it compares schools of similar size and IQ rankings of students.

Write to the California State Department of Education, Bureau of Evaluation and Instructional Research, 721 Capitol Mall, Sacramento, CA 95814, and ask for "California State Testing Program 1968-69, and Analysis of Reading Test Scores and Other School Factors."

★ ★ ★ ★ ★

100-Cent Ike

Ike Eisenhower is about to receive another honor. His will be the face on a new silver dollar, which will go into production at the United States Mint on October 14. That is the late President's 80th birthday.

The silver dollar has a great history. It was part and parcel of the old west and has become something of a collector's item -- whatever the year it was minted.

It is easy to think that Ike Eisenhower would be pleased with this new honor. Although the dollar has deteriorated in value, the silver dollar itself still retains its popularity. In fact, the more we can get of them the better.

SENSING THE NEWS

AROUND THE U. S. CAPITOL

Any strike is a loss for the workers, company and community involved — an act of waste in a society dependent on continuing productivity. The stike the United Auto Workers called against General Motors Corporation is uniquely wasteful, for the company is the largest manufacturing corporation in the United States — a key component in the country's economy.

When UAW leadership ordered the strike, it idled 400,000 members of the union at 143 plants in the United States and Canada. It is estimated that the decision of the union leaders will cost the rank and file $42.5 million a week in lost wages. The company will be deprived of an estimated $30 million a day in lost production. The strike comes at a time when the buying public is eager to purchase 1971 automobiles.

In effect, the strike is not against G. M. but against the entire American economy. G.M. plants are located in 18 states and 69 cities. The financial pinch is felt not simply by General Motos workers but by the employes of the company's 39,000 suppliers. The impact of the work stoppage may be gauged by the fact that G.M. consumes more than 10 per cent of America's steel production. The nation's defense effort also is critically affected by the U.A.W. strike inasmuch as G.M. has almost $700 million in defense contracts.

Obviously, this tremendous industrial activity is a major factor in the nation's economy. A prolonged shutdown of the General Motors operations could have grave effects on the economic wellbeing of the country. Even a brief stoppage provides the economy with a severe jolt.

What's most shocking about the strike action by the United Auto Workers is that a handful of powerful union leaders can halt a vital part of American industry and expose the country to a recession.

To be sure, the UAW leaders will say that the membership wanted the strike. But it is common knowledge that there is no meaningful democracy in unions. Though rank and file members may want to stay on the job and continue to get their weekly paychecks, they dare not oppose powerful union leaders. The leaders don't have to worry about the personal impact of the strikes they order, for their salaries continue, while rank and file members have to exist on meager strike fund pay ments.

Any way you look at it, the UAW strike cannot be justified. The nation loses. The workers and the company lose. Affected communities lose. It is not as though the company refused to recognize the financial needs of its employes. The last G.M. offer, which the union rejected, provided for a 15.8 per cent wage increase and numerous fringe benefits.

Something is very wrong with the nation's labor law if irresponsible strikes of this sort are allowed. The strike against G.M. shows the menace inherent in the union monopoly in the United States. No handful of labor leaders should have the power to deprive hundreds of thousands of Americans of their paychecks and cause widespread economic distress in many states and cities.

Certainly, the first step towards reform of labor legislation should be a ban on strike action applied nationwide against one company. Labor - managemen discussions should be on a plant by plant basis, not along national lines. Union monopolists, of course, know that the success of their economic blackmail tactics depends on the ability to cripple a company's operations from one end of the country to the

SENIOR CITIZENS

Sierra Madre Senior Citizens met at the club house in Memorial Park Saturday, October 10. There was a very nice turn out. Mr. Roland Roland Ridgeway led the group in prayer and the Pledge of Allegiance to the Flag. After lunch a business meeting was conducted and plans were discussed for several trips the club is planning. Following the meeting cards and other games were played. All senior citizens are invited to join and attend the meetings at 11:30 a.m. on Saturdays.

Do you remember — When you had a hired girl and you paid her $3 a week plus her room and board?

DR. WILLIAM R. PARKER
. . . . Educator, Lecturer and Author

Education and the Individual Child will be highlighted by Dr. William R. Parker, Ph.D. at the first Fall meeting of parents of the Ethel Barnhart School, 226 W. Colorado Blvd., Arcadia, Thursday evening, October 15th, at 8:00 p.m.

The public is cordially invited to hear this noted Educator, Lecturer and Author give an "in-depth" description of the environment surrounding the modern day child, with special emphasis towards the successful control of his daily life. To quote Dr. Parker "All children are precious simply because they are a person. We must remember that the child is not a small adult. He is a child and must be allowed to be one."

Dr. Parker received his B. A. and M. A. at the University of Redlands and in 1951 received his Ph.D. from the University of California. He was Professor of Speech Pathology as well as Director of the Speech and Hearing Clinic at the University of Redlands for many years.

In September of 1968 Dr. Parker became Executive Director of the Foundation for Human Achievement which is devoted to research in the field of Human Relations. He is well known for his highly successful therapy treatment of children suffering with handicaps which include Asthmatic and Migraine conditions. Dr. Parker is available for private consultations.

The Ethel Barnhart School will host a reception honoring Dr. Parker immediately after the meeting.

Rev. M. Stevens Sets Sun. Sermon

Margaret M. Stepens, minister of The Santa Anita Church, 226 W. Colorado Blvd., Arcadia, will speak Sunday, October 18, 1970 on "Conquering the Storm." Children and young people of kindergarten through junior high age accompany their parents to the sanctuary for the family worship and sermonette, followed by class instruction in the school buildings. Child care is provided in the nursery.

Immediately following the worship service, the congregation is invited to the hamburger lunch given by the Young Adults (high school) in Fellowship Hall. The proceeds will go to a conservation club as a part of the group's philanthropic program.

Dr. Raymond Holliwell, a friend of the congregation and guest teacher, returns to teach a class series, "The Special Master Class in Advanced Spiritual Principles." This class is for those who have a solid foundation in Truth. The class begins on Monday, October 19th and will continue on October 26 and November 2, at 7:30 in Inspiration Chapel. Tuesday at 10:00 a.m. the minister meets the Bible students of the church in a systematic study of its fascinating but sometimes mystifying treasurers. A metaphysical interpretation is included with this study.

Tuesday at 7:30 p.m. the evening class will discuss the lesson, "About God," with the minister. Everyone is invited. Both Tuesday classes meet in Inspiration Chapel. The Women's Class in Successful Living meets every Thursday at 11:00 a.m. with Rev. Stevens, giving the lesson. Bring a sandwich and join the group for lunch and the philanthropy workshop in the afternoon.

For those who love companionship but find themselves quite single why not attend the meeting of The Santa Anita Single Adults in the Fireside Room on Friday, October 23 at 8:00 p.m.?

The Healing Ministry of the church meets on Friday at 9:45 a.m. in the sanctuary. Prayer, personal meditation and ideas to contemplate all week make up the program headed by Mrs. Marjorie Black.

Lesson-Sermon Sun., Oct. 19

Lasting peace and brotherhood can be achieved, according to the Christian Science Lesson - Sermon entitled "Doctrine of Atonement," to be read Sunday.

Scriptural selections include the challenging words of Christ Jesus, "Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you."

One of the passages to be read from Science and Health with Key to the Scriptures by Mary Baker Eddy states:

"It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established."

All are welcome to attend services held at 11 a.m. in First Church of Christ, Scientist, 186 W. Highland.

You and Your Neighbors

The Donald Redmans, who have a home in Baja, California a few miles below Ensenada spent as much time there as possible. In fact, they will spend this coming weekend down there — "South of the Border." "They" refers to Don and his wife, Judy and their two children, Vicki ad Kimberly. Oh yes, and of course, Shadow, their Great Dane family member. Sounds wonderful, right?

— ☆ —

Always busy with never any quiet moments, or at least it seems that way, is the way every day is for Elsa (Mrs. George) Grijalva. One of the things keeping her so busy at present, is her membership in the Arroyo Singers. She is the only Sierra Madrean in the group, at least at this time, and since the group is always performing somewhere or another, or rehearsing, you can see just how that keeps her busy. Latest engagement for the group is at the Monrovia Art Fair at the Monrovia Library Park on Saturday afternoon, October 17. At least it would be an activity to "sing about."

— ☆ —

This summer, Charles and Warralene Sanders spent the entire month of August in Europe. Since this was not their first trip to Europe, they spent the time in five favorite cities — Rome, Paris, Geneva, Vienna and London. Only snap shots were taken this time, instead of slides and movies, because it's a little easier to get your snap shots out and relive the trip and happy moments. (Nothing to set up —like screens, projectors and boxes of film!)

On Sunday evening, October 11, the Sanders traveled to Hollywood to dine with two of the couples they met on the tour — Mr. and Mrs. Alvin Schwartz of Los Angeles and Dr. and Mrs. John Gocke of Hancock Park. A most enjoyable evening for all and much reminiscing of a wonderful months tour was done.

— ☆ —

Donald and Judith Redman, of 325 Steurtevant Drive, entertained members from his Geography classes at PCC on Sunday afternoon, October 11. Among those attending were three students from foreign lands — Holland, Czechoslovakia and Kenya. It was interesting to hear the young man from Kenya tell how he used to run, barefoot, to and from school for a distance of 18 miles each way!

Oct. 18 Sermon: 'The Occult and The Last Days'

"The Occult and the Last Days" will be sermon topic of Pastor Richard J. Anderson, Sierra Madre Congregational Church, 170 W. Sierra Madre Blvd., Sunday at 10:30 a.m.

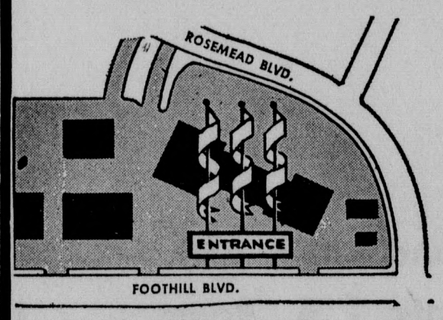

In response to the popular interest in black magic and Satanism, Arthur M. Climeenhage, Bishop of the Mid-West Pacific Conference of the Brethren in Christ Church recently wrote an article for Christian Life Magazine entitled, "Is Jesus' Return Indicated by the Rise of the Occult?" In this article he says, "It is interesting to note that a study of the first advent of Jesus Christ, the birth, the incarnation of Jesus Christ into human history, was marked by unprecedented activity on the part of demon forces." I Tiomthy 4:1 and 2 tells us about the last days; "Now the Spirit speaketh expressly that in the latter times some shall depart from the faith giving heed to seducing spirits and doctrines of devils."

Church School and Adult Bible Class 9:30 a.m.

CARROT TOP

flood insurance."

— CT —

"I can understand being insured against fire," said the other, "but I just cannot figure out how anybody could start a flood." . . . and this one is not easy.

— CT —

I read the following story in a Southern Newspaper and will repeat it for you, this may be what is happening to all your money, more particularly to merchants who will end up the year and not show the profit they had hoped for last January 1st, anyway it goes like this:

— CT —

Seems that an old southern negro was asked by his banker what was the reason that he was calling upon the bank for a loan and needed credit when he'd had such a good cotton crop that year, and the Southern Negro's answer was:

— CT —

"De ducks got 'bout all dat cotton, sah," was the mournful reply. "What do you mean the ducks got about all the cotton?" . . . "Well, you see," explained the old man, "I sent dat cotton up to Memphis and dey deducks the freight, and dey deducks the storage charges, an' dey deducks the commission, and dey deducks the taxes . . . yes sah, de ducks got 'bout all dat cotton, an dats why I'm here." . . . At this point I think the deducks have about got all that I possess, if not they sure will have by the time December 10th rolls around.

— CT —

In closing the column for this week we will end up with reprinting a "Thank You" that appeared in an Oregon Newspaper:

— CT —

I wish to extend my heartfelt thanks to all those who contributed to the comfort of my brother during his illness and assisted his family in their bereavement; and to all those who profited by their misfortune, would refer for consolation to the 14th verse of the 23rd chapter of the gospel according to St. Matthew." look it up, it's a blisterer.

— CT —

The Recall election is all over with, are you satisfied, I hope, I hope, I hope.

Cave-Inn Party Held Saturday

It was called the "B. C. Bash" and from the looks of the group gathered at "Clarke's Cave Inn" (home of the Donald Clarke's) on Saturday evening, it very well might have been just that. The event was a party for members only of Las Companeras of Pasadena.

Costumes were those of 1000 B.C. vintage. Leopard and tiger skins were everywhere. Bill and Evelyn Shaw dressed as a dinasour and dinasour egg took first prize. Other clever costumes included Jim and Carolyn Northern as an archeologist and a box full of bones, Kieth and Eleanor Stiles in pure Azetec and Neil Brady in a prehistoric alligator head.

There were many club swinging cavemen in skins and long hair. Reptile skins were also popular. A late roast beef supper was served by an open fire around the pool, followed by dancing.

Original useless inventions were demonstrated by Thor lovers. Dale and Barbara Shorts light bulb detector and Herb and Norma Laceys dinosaur detector shared honors.

Those present included: Club president Mrs. Herb Lacey and Herb, the Harry Ashers, Charles Baileys, Frank Colets, James Cruse, William Hagens, Richard Hansons, Peter Jacobs, Edward Mohrs, William Morzovs, Gordon Newhouses, James Northerns, Donald Paradises, Al Pruitts, William Shaws, Dale Shorts, John Spences, Donald Clarks (hosts), Robert Farrells, Mr. James Gittinger, the Neil Bradys and the William Mayers.

Do you remember — When you judged a girl by her ears — not her legs?

You and Your Neighbors

by NANCY BRYAN

Timothy Hoffman of Big Pine in the High Sierras is in his second semester at PCC studying Law Enforcement. Like last semester, he is living with his grandparents, Mr. and Mrs. Louis Hoffman, during the school term and then returning to the high country for vacations. Needless to say, the grandparents are thrilled with the arrangement.

The monthly birthday party at Parkwood Convalescent Hospital at 161 West Sierra Madre Boulevard was observed last Friday, October 2 with cake, ice cream, birthday cards and greetings. Those honored at the party were: Mrs. Georgia Kirby, Miss Elma Ware and Mrs. Ruby Mathews. Happy Birthday ladies!

— ☆ —

Now that a month of school has gone by, the two boys of Christopher and Diana Houser are settling down to the routine. Both are very pleased with school and always have been and when you feel that way about school, it can be pretty exciting. Christopher, 6-years-old, is a first-grader at St. Rita's while Peter John, 4-years-old, is in his second and last year at the Sierra Madre Community Nursery. He really loves his days at the Nursery school, where he gets a most balanced and quality environment, but he is still eagerly looking forward to kindergarten next year, with much enthusiasm.

— ☆ —

Butch Osti is very pleased about his poultry entries at the L. A. County Fair. The Rooster he entered won a First Prize; the cockerel won a fourth as did the pullet Butch entered; and the hen won a fifth prize. Poor little Sebright Hen didn't win any prizes . . . but Butch doesn't feel too badly about that as there were about 75 entries in the class he entered the Sebright hen. (How will she ever be able to face the other chickens???!!! The only one not to bring home a prize!)

Beautiful Arrangements Made To Your Order

Free football helmet banks

Blue and white with authentic L. A. Rams design (A game saver)

Special coin banks for young savers. These helmets with the team colors and insignia are enough to get any football fan started on saving his allowance. To get one you open a bank-safe $100 savings account at First Western Bank. If you're already a customer of ours, just add $100 to your present savings account.

A team effort. Kids have more fun saving their coins in the helmet bank of their favorite team. It can be a winning season with a full helmet bank on the bureau or night stand.

The banks are not for sale. The only way to get one is to open a $100 Savings account for your young Quarterback. The limit is one for each $100 account. All we ask is that the account stay open for at least six months so we can get to know each other. This offer is good for a limited time only.

Available at the following branch offices and only while supplies last:

As Hank Ives Sees It

offs this year. PCC was "in" last year until Bakersfield blew the whistle on some nondescript player and the locals had to forfeit five games. The Lancers are mighty mean on defense and have a slick running attack with the Youngbloods, Slyvester and Albert, plus Greg Bass. The Lancers trek to Santa Monica this weekend and Hankus looks for a victory in the neighborhood of 28-21.

ON THE HIGH SCHOOL front PASADENA should continue in the unbeaten and maybe unscored upon category with a 21-0 win over Burbank . . . BLAIR will have too many horses for Muir and win something like 33-20.

IN THE PCAA it looks as though SAN DIEGO STATE will go for their 27th game without defeat and handle Southern Mississippi . . . . SANTA CLARA will take the measure of Santa Barbara . . . . FULLERTON STATE to edge Cal State L.A. . . . . FRESNO STATE by six over Valley State . . . BOISE STATE to upset Cal State Long Beach . . . L.S.U. to prove too much for a real tough Pacific eleven . . . .

IN THE PAC-8 . . . USC's murderous offense against Jim Plunkett's aerial wizardry and the Injuns are still smarting from last year's "after the gun" loss to the Trojans. Hankus feels that USC may be one of the great ones and that Stanford will be unable to contain the ball control element. Make it USC 35, Stanford 31 in a wild one . . . WASHINGTON over a surprisingly inept California team 21-17 . . . ARIZONA STATE to outscore Washington State something like 38-26 . . . . OREGON to upset UCLA suffering from a natural letdown after the narrow Texas loss . . . OREGON STATE over Utah by two TDs . . . .

TEXAS should be able to knock off Oklahoma by 10 . . . OHIO STATE to trounce Michigan State . . . NORTHWESTERN over Illinois in one of Hankus' limbcrawlers . . . PURDUE to surprise Michigan . . . WISCONSIN over Iowa . . . NEBRASKA to sneak past Missouri in a ding-dong-doozy.

THE RECORD TO DATE stands at 54 wins and 21 losses for a 72 per cent.

REMEMBER — It's what you learn after you know it all that counts.

Out of the Cobwebs

known as the Davis ranch. Mr. Davis was the father-in-law of Mr. C. H. Andrews of Modesto who has been visiting his brother, W. S. Andrews, this week.

Mrs. Mary Davis Goodfellow opened her kindergarten last Monday for the third year. About a dozen youngsters enrolled and they make a happy family.

Mrs. Mary E. Entwistle entertained a few ladies on Monday with luncheon at the Jonathon Club, followed by a box party at the Orpheum. Her guests were Mrs. Gillman of Los Angeles, Mrs. McDonald of St. John, Kansas, Mr. George H. Letteau and Mrs. E. Entwistle.

The first meeting of the Audubon Society for the coming year will be held on the third Monday in October, the 17th at the home of Mrs. Frank Wright. The meeting will begin promptly at three o'clock.

Miss Stella Norris has been suffering from a severe attack of illness the past week. News of improvement in her condition is welcomed by a host of sympathetic friends.

Forty Years Ago:
October 10, 1930

County Flood Conutrol Engineer Eaton has proposed to the Board of Supervisors that they undertake a survey of a site two miles below the San Gabriel Canyon forks for a 300 foot rockfill dam with a flexible concrete face. Mr. Eaton further asked for an appropriation of $40,000 from the maintenance fund to finance the survey which would take about three months and a force of 100 men to complete. The survey embraces the sinking of large test holes in the canyon bed and tunnels on the sides of the proposed location, which is one of three possible for use as an alternative for the originally planned high dam at the forks. Roadways have been constructed up both sides of the canyon in order that work may be started next spring in case the survey proves the feasibility of the project.

Altadena is greatly wrought up over a petition for annexation to Pasadena circulated among about 2,000 of its population contained in an area of about 500 acres along the North city limits of Pasadena.

A contract for the grading and construction of the school playground was awarded yesterday to Glen C. Bailey, 624 El Centrol steet, South Pasadena, who submitted the low bid of $16,995.00. Under this contract the school board called for the grading of the playground, the construction of retaining walls, cement sidewalks, two tennis courts, a baseball diamond and all necessary fencing.

Ten Years Ago:
October 13, 1960

There are approximately 5,800 voters in Sierra Madre, and both pro and anti-annexationist leaders hope that mostly they will vote Tuesday at the special election. The latter will decide whether the Sierra Madre School District will be annexed to the Pasadena School System. For years now, Sierra Madre High School students have attended Pasadena schools. If the annexationists win next Tuesday the city's two elementary schools, Sierra Madre and Sierra Mesa, will be placed under the direction of the Pasadena School District, while the senior and junior high students will continue to attend classes in Pasadena.

By next month, Sierra Madre will have a radio station, KMAX (FM 1.07), named for owner-founder, Max Isoard (who also owns the Seaside Station here in town). The new station's 1,000 watts will beam from a 120 foot vertical tower atop 48½ W. Sierra Madre Blvd. (behind the new beauty parlor). Broadcast hours: 9 a.m. to 10:30 p.m., seven days a week. What does Mr. Isoard plan to broadcast? "Mostly middle-of-the-road stuff," he said, "news, music, commercials." He will be broadcasting United Press News, and commercials will be both local and national. The music will be recorded or taped and Mr. Isoard says eventually broadcasting local talent. Chief engineer is John Epling. Isoard and his wife, Mary Ellen (who will likely do the KMAX office work), have lived at 420 N. Sunnyside since 1952.

Do you remember—Sleeping on a mattress filled with wheat straw?

The Food You Eat

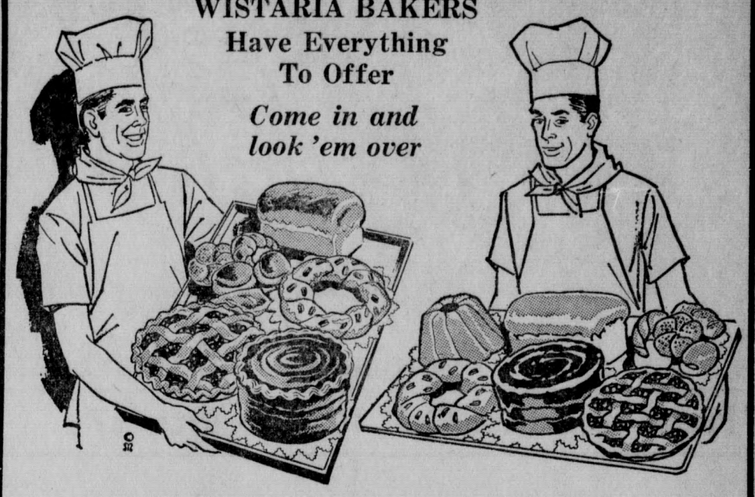

ion salads were eaten during the winter. Fresh or dried herbs were used for flavoring and the Whalers' wives' cupboards produced cloves, mustard seeds and pepper. The result of some of these dishes were sometimes a cross between a salad and a relish. Potatoes were not introduced into the United States until 1719, but were common in Connecticut before the Revolution and potato salads were as popular as warm potato dishes. Salad dressings consisted of oil, vinegar, eggs, bacon and sugar.

All New England cooking started on the hearth. There was bake oven for the bread, a spit for meat, and various trivets and devices for keeping food warm. The central position over the fire was the cookpot. It hung from a pivoting arm and could be lowered or swung away from the fire as needed.

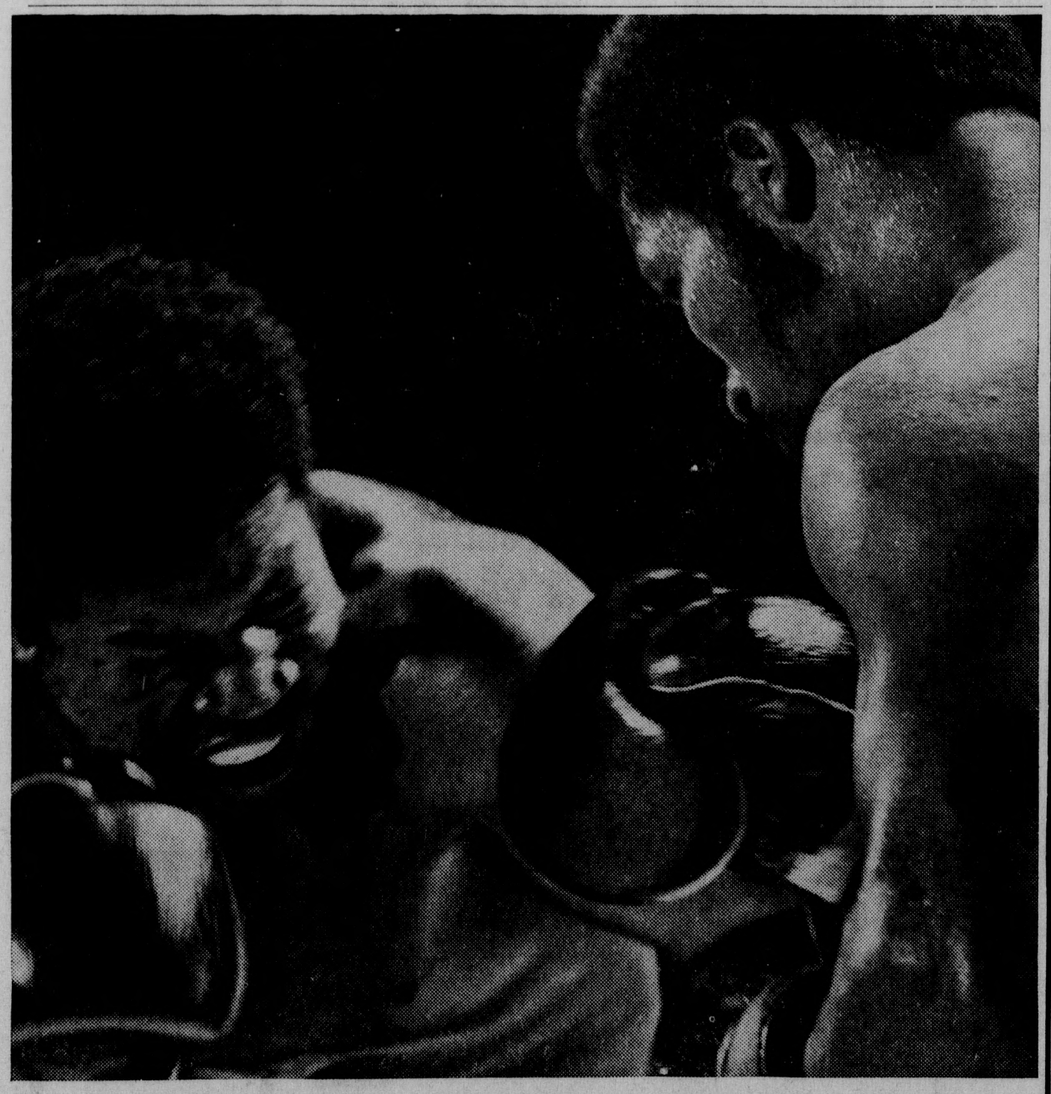

The New Englanders lived largely on two kinds of food — breads, beans and pies from the bake oven and stews and chowders from the cookpot. Winter soup was made with a hambone, cinnamon, peppercorns, cloves potatoes, onions, cabbage, tomatoes and herb vinegar. Dried vegetable soups were made with pod vegetables and root vegetables. Lentil soups were made with a ham bone, carrots, potatoes, onions, a bay leaf and sherry. Sometimes a turkey carcass and scraps of turkey and parsley were used in place of ham. Soup was also made of beans, pumpkin or potatoes. They also made what they called a "portable soup." This soup was used for the whalers and travelers. The soup was boiled, reduced, pressed and dried. This took considerable time, but it kept well and furnished a nourishing meal for those who went to sea. About 1870 a German chemist invented commercialized meat consentrates and bouil-on cubes and this ended the chore of making the dried soup.

This is one way out of poverty.

But, like every shortcut, it's a long-shot.

A man's real hope is to learn. He needs the basics that will get him a decent job.

A group of Gas Company employees have volunteered to help. They've joined volunteers from other businesses working at the South Central Los Angeles Service Center. Other Gas Company people are helping at service centers in East Los Angeles and Venice.

They work evenings, teaching. Business English. Arithmetic. Anything that will help somebody get a job. And they'll teach anybody who wants to learn.

Gas Company people don't get any pay for this work. Except satisfaction. But they believe that everybody ought to have a fighting chance.
